Dr. Michael Fallon was born in Worcester in 1863 to Irish Immigrant parents, James Fallon and Mary Dwyer. He grew up in Worcester and received his bachelor degree from the College of the Holy Cross in 1884. He then attended Harvard Medical School, and received his MD in 1887. Dr. Fallon was a pioneer in using rubber gloves while operating; employing insulin for diabetes and in the use of intravenous anesthesia. He was the founder of the Fallon Clinic in 1929. The Fallon clinic opened in 1929 in the Slater Building on Main Street. In 1946, the Clinic moved to a three story brick building at 10 Institute Road. In 1966 the clinic moved to 630 Plantation Street. In February 1990, the Fallon Community Health Plan and St. Vincent Hospital Healthcare Systems merged. Scope and Content

(From original index created by family.) The collection represents Dr. John M. Fallon and Dr. Michael F. Fallon, the founders of Fallon Clinic. It contains their writings, letters, diaries, family photographs and articles written about them. It also contains materials that you would find in your attic like school report cards, rough drafts, diplomas, genealogical information, scrapbooks, graduation gowns, and telephone lists. Most of the data relates to Dr. John M. Fallon and the collection has been organized accordingly.

The collection was given to the museum organized by family members and included a very detailed index. Library staff tried to maintain that original order as much as possible.
