### **Historical/Biographical Notes**

Harriette Merrifield Forbes, 1856-1951, wife of Judge William Forbes, was a Worcester native, and noted amateur photographer of early New England gravestones, as well as a historian with particular interests in 17<sup>th</sup> and 18<sup>th</sup> century New England stone carvers. She was author of *Gravestones of early New England and the men who made them, 1653-1800* (Boston, Houghton Mifflin, 1927) and other gravestone related articles published in historical journals.

### **Scope and Content**

The collection comprises approximately 1 linear foot of 5x7 in. photographs of 17<sup>th</sup> and 18<sup>th</sup> century gravestones, many with stone carver identified, which provide insight into the stone carving techniques of the period, as well as provide a pictorial record of the symbolism found on early gravestones. Most photographs were taken during the 1920s. An additional six photographs of cast or wrought iron cemetery gates (with copies), coats of arms, and miscellaneous photographs of historical interest complete the collection.
