BOSTON ELECTRIC COMPANY,

W. R. NUTTING, Manager,
131 DEVONSHIRE STREET,
OPPOSITE POST OFFICE, BOSTON.

40 HARVARD ST., WORCESTER, June 1, 1879.

The Electric Lighting and Electric Bells with which you fitted my house a year ago, give us great pleasure and satisfaction. If it were to be done again now, I should want one of the Automatic Lights connected with the doors and windows, as a burglar alarm, to light my own room.

Yours truly,

JOHN W. HOWE.

WORCESTER, MASS., April 10, 1879.

W. R. NUTTING & Co.—*Gentlemen*: Your Electric Lighting Apparatus has been in use in my house now for one year and a half, and I can only speak in the highest terms regarding it. I would not be without it. It is something that should be universally used; I am satisfied that it would only take one trial to recommend it to favor. I congratulate you on your success in having overcome so many serious difficulties.

Very truly yours,

ADDISON MACULLAR.

WORCESTER, Dec. 15, 1879.

BOSTON ELECTRIC Co.—*Gentlemen*: I have now for two months used throughout my house your Electric Apparatus for lighting gas, including one automatic which you put in, and I am ready and willing to express my great satisfaction with the whole working of the system. It is admirable in every respect, and I should not know how to dispense with it. I can also say as much of the Electric Bells all through the house.

Yours truly,

ALEX. H. BULLOCK.

UNDERCLIFFE, ST. JOHNSBURY, VT., Dec. 18, 1879.

BOSTON ELECTRIC Co.—*Gentlemen*: The Electric Gas Lighting Apparatus you have put into my house, is not only a luxury but a great convenience. The attachment to the chandelier, whereby the pulling of a little chain lights the gas, and a second pull extinguishes it, is a decided convenience, especially if the room is dark and you cannot find the matches. But the most mysterious and wonderful invention is your automatic burper, which instantly lights on twitching a button on the wall, and by touching a second button the light is extinguished. I have this arranged so I can light my street lanterns on my driveways, one of which is over 400 feet from the house. These buttons I have in different rooms, all attached so the gas can be lighted from either room. From my sleeping room I can light the burner in my front hall and extinguish it, which would light up a night-intruder in a way he would not like. Your apparatus is a perfect success.

FIFTEEN DOLLARS PAYS FOR TUITION IN
Piano, Organ, Voice or Harmony,

Which with the collateral advantages amount to

ONE HUNDRED AND TWENTY-FIVE HOURS' MUSICAL INSTRUCTION IN A
SINGLE TERM.

Twenty-five Reasons in favor of the Conservatory System.

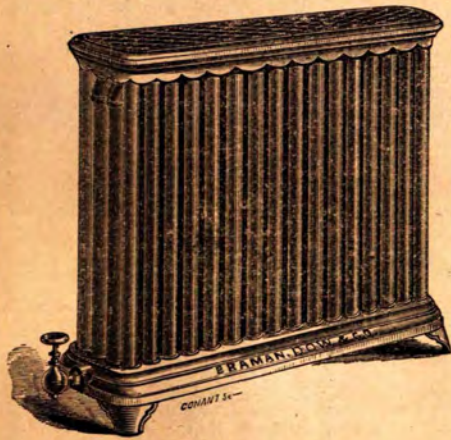

1. Economy. Cost of Tuition only \$15.
 2. Three hundred years established in Europe; twenty-five years' successful experience in America.
 3. Mind matched with mind sharpens intellect.
 4. Diffidence overcome by public performance in class and in Conservatory and Music Halls.
 5. Each pupil has the benefit of whole-hour lessons.
 6. One hundred and twenty-five hours' musical instruction in a single term.
 7. The lesson is a recitation; no waste of time.
 8. Laudable ambition to excel.
 9. Pupils carefully graded, and promoted according to proficiency.
 10. The ablest instructors are employed.
 11. MENDELSSOHN says, "It has advantages over private instruction; it produces industry, spurs on to emulation, and preserves against one-sidedness of education and taste."
 12. Musical atmosphere of the Conservatory conducive to broader culture.
 13. The best instructors educated in Europe are graduates of Conservatories.
 14. A finished musical education attainable from the first rudiments to final graduation.
 15. Its graduates rank high and fill the best positions.
 16. Frequent recitals by eminent artists.
 17. Access to a fine musical library.
 18. The class system in the Conservatory is the same as in our colleges and best schools.
 19. All branches in music, languages and elocution are taught.
 20. The "London Choir" says of its Organ department, "The New England Conservatory of Music is far in advance of our own Academy, and, indeed, of every English Institution."
 21. Harper's Monthly characterizes it as the "Model Music School of the age."
 22. Beginners are received.
 23. Evening classes are formed each term.
 24. Private lessons, if preferred, at Teachers' regular rates, with over one hundred hours of other musical instruction without charge.
 25. The most talented and successful students prefer the class system.
- Send for Circular. Pupils now received. The public are cordially invited to call.

METRIC SYSTEM.

MASSACHUSETTS LAWS AND RESOLVES, 1877.

CHAP. 40.

An act in relation to the METRIC SYSTEM of Weights and Measures.

Be it enacted, &c., as follows:—

SECT. 1. That from and after the passage of this act it shall be lawful throughout the Commonwealth of Massachusetts to employ the weights and measures of the Metric System, and no contract or dealing or pleading in any court shall be deemed invalid or liable to objection because the weights or measures expressed or referred to therein, are weights and measures of the Metric System. The metric weights and measures received from the United States, and now in the treasury of the Commonwealth, may be used and taken as authorized public standards of weights and measures; and these authorized standards shall in no case be removed from the treasury except under necessity for their preservation or repair.

SECT. 2. The following tables shall be recognized in the construction of contracts, and in all legal proceedings, as establishing in terms of the weights and measures now in use in the State of Massachusetts, the equivalents of the weights and measures expressed therein in terms of the Metric System; and said tables may be lawfully used for computing, determining and expressing in customary weights and measures the weights and measures of the metric system. For Metric tables see Index.

THE METRIC SYSTEM.

LEGALIZED BY ACT OF CONGRESS, JULY 27, 1877; BY ACT OF MASSACHUSETTS LEGISLATURE, MARCH 10, 1877.

MEASURE OF LENGTH.

Metric denomination and value.		Equivalent in denominations in use.	
Millimeter	1-1000 of a meter.	.0394	inch.
Centimeter	1-100 of a meter.	.3937	inch.
Decimeter	1-10 of a meter.	3.937	inches.
Meter	1 meter.	39.37	inches.
Dekameter	10 meters.	393.7	inches.
Hektometer	100 meters.	328	feet 1 inch.
Kilometer	1,000 meters.	.62137	mile, or 3,280 feet 10 inches.
Myriameter	10,000 meters.	6.2137	miles.

MEASURE OF CAPACITY.

Metric denomination and value.		Equivalent in denominations in use.		
Name.	Number of Liters.	Equivalent in Cubic measure.	Dry measure.	Liquid or Wine Measure.
Milliliter	1-1000	1 cubic centimeter.	.061 cubic inch.	.27 fluid dram.
Centiliter	1-100	10 cubic centimeters.	1.6102 cubic inch.	.338 fluid ounce.
Deciliter	1-10	1-10 of a cubic decimeter.	6.1022 cubic inches.	2.045 gill.
Liter (Lecter)	1	1 cubic decimeter.	.908 quart.	1.0567 quarts.
Dekaliter	10	10 cubic decimeters.	9.08 quarts.	2.6417 gallons.
Hektoliter	100	1-10 of a cubic meter.	2 bushels and 3.35 pecks.	26.417 gallons.
Kiloliter	1,000	1 cubic meter.	1.308 cubic yards.	264.17 gallons.

WEIGHT.

Metric denomination and value.		Equivalent in denominations in use.	
Name.	Number of Grams.	Weight of what quantity of water at maximum density.	Avoirdupois weight.
Milligram	1-1000	1 cubic millimeter.	.0154 grain.
Centigram	1-100	10 cubic millimeters.	.1543 grain.
Decigram	1-10	1-10 of a cubic centimeter.	1.5432 grains.
Gram	1	1 cubic centimeter or 1 milliliter.	15.432 grains.
Dekagram	10	10 cubic centimeters or 1 centiliter.	.3527 ounce.
Hektogram	100	100 cubic centimeters or 1 deciliter.	3.5274 ounces.
Kilogram	1,000	1 liter.	2.2046 pounds.
Myriagram	10,000	10 liters.	22.046 pounds.
Quintal	100,000	1 hektoliter.	220.46 pounds.
Metric ton	1,000,000	1 cubic meter or 1 kiloliter.	2204.6 pounds.

For Square Measure the square of long measure is used. For measuring land—in the place of acre—the **centar** which is one square meter, equivalent to 1,550 square inches; the **ar** which is 100 square meters, equivalent to 119.6 square yards; the **hectar** which is 10,000 square meters, equivalent to 2,471.4 acres, are used.

For Cubic Measure the cube of long measure is used; **ster** is used as a measure of wood in place of cord. The mill, cent, dime, dollar, and eagle of U. S. money exactly illustrate the decimal system of the metric measures,—the mill, cent, dime, corresponding with the milli, centi, deci of the metric system.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m, l, g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d, c, m.; but each multiple, deka, hekto, kilo, myria, is abbreviated by using the capital initial letter D, H, K, M.

Equivalents.—1 inch equals .0254 meter, or about 2 1-2 centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or ab. 10-11 of a meter; 1 mile 1609 meters, or ab. 1.6 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3.8 liters; 1 U. S. bushel equals 35.24 liters, or about 4-11 of a hektoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy and apothecaries ounce equals .03110 kilogram, or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

Basis of the system.—1. The unit of length, the meter, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the ar, is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the liter, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the gram, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Norway, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use, in the United States, Great Britain, Russia, Norway, Sweden, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. S. of Columbia, Uruguay. In Sweden compulsory law will take effect in 1889.

PLEASURE DRIVES.

FEW inland towns afford, to the lovers of rural drives, as pleasant a surrounding country as Worcester. For the benefit of those who may not prefer to explore for themselves, we give a few directions.

All the roads to the surrounding towns lead through pleasant farming districts, but late in the season, when drought and a hot sun have rendered these frequented routes less agreeable, there are many charming by-paths which retain the freshness of early Summer.

ELM TREE DRIVE.—From Lincoln street, leaving City Farm on the left, pass Lake Quinsigamond. Then take first turn to the right. This road leads out to Belmont street beyond the Causeway.

LILY POND DRIVE.—Turning from Lincoln street into Boylston street take the first turn to the right leading round the head waters of Lake Quinsigamond and into Elm Tree Road.

BANNISTER MILL DRIVE.—Turn from Lincoln street into Boylston street. Take the third turn to the right, a narrow way through the woods, somewhat overgrown, and after passing the mill take first turn to the right. This road leads out on the Lily Pond road.

BOWLDER DRIVE.—First turn to the right from Boylston street after passing Mr. Gough's place; follow this road to the third turn, which leads to Shrewsbury, past a curious Bowlder on an eminence at the right.

THE RESERVOIR DRIVE.—Main road to Leicester. At Cherry Valley turn to right, and, keeping to the right past the Reservoir, descend Sylvester hill into Tatnuck.

BRYANTS' WOODS.—From Leicester village take road to Paxton, first turn to left, and continue about two miles to Pudding Corners schoolhouse, leaving that on the left these beautiful woods are immediately ahead.

GREENWOOD ROAD DRIVE.—Main road to Quinsigamond village, just beyond, keep to the right, and round by the left to the Millbury road; thence, the right turn leads to that town, the left back to Worcester.

OLD COMMON DRIVE.—Main road to Millbury. Turn to the right by the Millbury Bank; keep the straight road, leaving Bramanville on the left; the old common, about a mile from Millbury village, lies at the top of the hill, which is the site of the earliest settlement in the town—the original Millbury village; turn to the right down the hills, which give pleasant views, into the Greenwood road and straight back to town.

FLAGG'S RETREAT ROAD.—From Greenwood road, second turn to the right, about three miles to railroad crossing, pass this, and turn to right, then to right again to Southbridge street. Drive out through Southbridge street to the Auburn station, turn to the left over the railroad, and keep straight on this road, coming down Mt. St. James, by the Holy Cross College, into Southbridge street. A beautiful drive, with pleasant views.

DAVIS COTTAGE ROAD DRIVE.—Main road to Grafton, second turn to left; take the second turn again to the left, this road leads to the old Boston turnpike; turn to the left, come back over the Causeway at the lake.

SOUTH LEDGE DRIVE.—From Winthrop street leaving Mr. Crompton's residence on the left, turn into Granite street, which leads past the South Ledge, and through the woods to the Millbury road.

HOLDEN POOR FARM DRIVE.—From the main road to Holden, take second turn to the left, then first turn to right. Pass the Holden Poor Farm, turn again to the left and back to Worcester through Salisbury street. Part of this drive through the woods is rough, but beautiful.

SILVER SPRING DRIVE.—From the Paxton road beyond Tatnuck the second turn to the right leads to the little spring in a grove at the right, where seats have been placed for picnic parties. From the top of the hill beyond the grove, a fine view is afforded, and following the road down the steep descent and turning to the right, it leads back to Tatnuck.

SILVER CASCADE.—Holden road from Tatnuck, first turn to the left, past Mr. Stephen S. Foster's, then to right into a narrow overgrown road. The little stream, which in the Spring is sufficient to form a pretty cascade, comes down the hill on the left.

STONE HOUSE HILL.—Same road from Tatnuck to Holden, first turn to right about 1-2 mile beyond residence of Mr. F. J. Kinney and go to the end of the road. A walk through the pastures leads to the Ledge of Rocks, which gives the name. During the stormy times preceding the breaking out of the revolutionary war, the royalist residents in Worcester, fearing violence, retired to this place, making some additions to the natural defences of the situation, which afterwards received the name of the Tory Fort.

BELLEVUE DRIVE.—Holden and Tatnuck road, second turn to right, second turn again to right, then first turn to left, then first turn to right and back to town. At one point on this road there is a pretty view of Monadnock and Wachusett mountains.

MULBERRY GROVE DRIVE.—Paxton road, about a mile beyond Tatnuck, turn to left, and keeping to the left, cross to Leicester.

HAPPY VALLEY.—In West Boylston about six miles from City Hall—a small grassy interval surrounded by wooded hills, picturesque and secluded. Follow Barncoat street to City line and continue on about two miles beyond Summit station, turn to the right, pass residence of Geo. T. Brigham, and where the fence on left of road ends, turn immediately to the left and a blind carriage way takes you into the Happy Valley.

ASNEBUMSKIT HILL.—Main road to Paxton three or four miles beyond Tatnuck. Carriages left at a farm house on the road side. Ascent made on foot. The summit of Asnebumskit can be reached also from the Holden side. Holden road through Tatnuck, take second turn to left, after passing residence of Mr. F. J. Kinney. Carriages can be left at farm house at foot of hill, or at a deserted farm house lying about half-way up. This route is the shortest and gives a nearly level road, but calls for the most climbing after leaving carriages. Distance from Worcester to top, about seven miles. A rough path, which can be traversed afoot or mounted, connects the two sides. This hill (1407 feet above tide water), excepting Wachusett (3008 feet) is the highest point in this part of the State, and gives on the north a fine view of Monadnock (3186 feet), and of the Green Mountains beyond. It is hoped a carriage road will soon be made, to enable all to enjoy the fine view from this hill.

PURGATORY.—This remarkable chasm lying in thick woods in the southeast portion of the town of Sutton is some 30 feet wide and more than 1000 feet long, while the depth, in places, reaches nearly 60 feet; the view of the rocky walls and overhanging ledges is picturesque and impressive. It is a resort for woods parties. Take direct road to Millbury and pass through Sutton village, or Wilkinsonville. Distance from Worcester about 16 miles.

WACHUSETT MOUNTAIN.—This hill, one of the highest in the State (3008 feet above tide water), lying in the north part of the town of Princeton, furnishes a view covering nearly the whole extent of Massachusetts. At the north the Green and White Mountain ranges are in full view, and with the aid of a glass vessels can be seen under sail in Boston harbor. The distance from Worcester is about seventeen miles, through woods and pleasant farming districts, the most direct roads being the continuation of Salisbury street, or Holden street, through the town of Holden.

LARGE CITIES OF THE WORLD.

This Table gives the name, country and population of all cities of Europe containing 50,000 inhabitants, and of all in the world whose population reaches 100,000—except cities in the United States, for which see Contents—besides other places of note, of less population; compiled from latest authorities.

Directory Office, 452 Main Street.

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know on what part of Main street No. 620 is: turn to Main street, and you find that Austin street runs from 602 right side, and Chandler street from 648, showing that No. 620 comes out the right side of Main street between Austin and Chandler. Dashes are inserted where numbers are wanting.

ABBREVIATIONS.—Av. avenue; ct. court; e. east; fr. from; n. north; pl. place; s. south; sq. square; w. west; Wd. ward.

Boulevard.— There is
no street properly
bearing this name;
but, in common usage,
the term has been ap-
plied to Newton, No.
Newton, and Pratt
streets, upon the
Western side of the
city; and to Lake Ave-
nue, along the west
shore of Lake Quin-
sigamond, from Har-
rington to Belmont
street, and legally de-
creed from Belmont
street to Lincoln
street. It is intended
that these avenues
shall connect: at the
north, by Lincoln,
Melrose, and Mill-
brook streets; and at
the south, by Har-
rington street from
the Lake, thence,
striking across, by a
road to be construct-
ed, to the wireworks
at Quinsigamond vil-
lage, skirting the foot
of Mt. St. James, to
Hope Avenue, thence
by Webster and Mill
streets. This com-
pleted, will constitute
a grand drive around
the city.

FIRE ALARM TELEGRAPH.

Under charge of Joint Standing Committee on Fire Department.

Superintendent—William Brophy. Salary, \$800. Office, Bigelow Ct. Elected by City Council in Convention.

The telegraph was constructed at a cost of \$14,000, by GAMEWELL & Co., of New York, and was accepted by the city, July, 1871. Alarm is given instantly from the Alarm Boxes to the office of the Fire Department, to each of the engine houses, to the house of each engineer, and at the police office, the number of taps indicating the box from which the alarm is given. The taps can also be heard at each of the other boxes. Keys to the boxes are in the hands of the police, and the nearest responsible resident to each box.

EXPLANATION.—For a fire near box 4, the bells will be struck 4 times, 2½ seconds apart; then after a pause of 20 seconds, 4 times again, and so on. For a fire near box 45, the bells will give 4 strokes (for the tens), and after a pause of 7 seconds, 5 strokes; to be repeated at intervals of 20 seconds.

OVERSEERS OF THE POOR.

Office No. 9 City Hall.

The Mayor, *ex-officio*; City Marshal, *ex-officio*; Superintendent of Public Schools, *ex-officio*; George W. Gale, Charles Belcher, terms expire December, 1880; Calvin L. Hartshorn, James Draper, terms expire December, 1881; Walter Henry, Charles F. Rugg, terms expire December, 1882.

Chosen in December, by the City Council in convention.

Clerk—George W. Gale. Salary, \$1,200. Office hours, 10 A. M. to 12 M. Elected by the Board.

The Overseers of the Poor have charge of the Poor Farm and the Truant School, and supervision of resident and non-resident paupers of the city and all insane paupers settled in Worcester in the State Lunatic Hospitals; also of all boys settled in Worcester committed by the Municipal Court to the Reform School from the City of Worcester.

Regular meetings at Aldermen's rooms, City Hall, at 7.30 P. M., on first Friday of each month.

POOR FARM.

Superintendent—B. F. Parkhurst. Salary, \$900. Matron—Mrs. F. J. Parkhurst. Appointed by the Overseers of the Poor. Scavenger Department—Under charge of the Superintendent. Five single wagons, owned by this department, are constantly employed in the city collecting offal, from five to seven tons being collected daily; carrying this from the city to the Poor Farm, where it is fed to swine.

CITY HOSPITAL.

No. 45 Wellington Street. Incorporated 1871.

There are seven Trustees of the City Hospital chosen by the City Council in concurrence, in January, as follows: One from the Board of Aldermen, and two from the Common Council, for one year, and four from the citizens at large, for four years.

Trustees—Charles G. Reed, Alderman; Councilmen Loring Coes, Francis Plunkett; at large—Stephen Salisbury, jr., term expires January, 1884; Albert Curtis, term expires January, 1883; J. Sargent, term expires January, 1882. F. H. Kelley, term expires January, 1881.

Commissioners of the Jaques fund and other funds of the City Hospital.—Albert Curtis, term expires Jan. 1883; Dr. F. H. Kelley, term expires Jan. 1882; Benjamin Walker, term expires Jan. 1881.

Supt. and Resident Physician.—J. Bartlett Rich; *Medical Staff, Visiting Physicians*—R. Woodward, G. A. Bates, H. Clarke, O. Martin, J. M. Rice, J. N. Bates, T. H. Gage, E. Warner, G. E. Francis, A. Wood, Leonard Wheeler, J. O. Marble; *Oculist and Aurist*—L. S. Dixon; *Pathologist*—Wm. H. Workman; *Matron*—Miss M. A. Hales.

The Hospital offers accommodation for the treatment of twenty-five patients, who may be admitted on application to Dr. J. Bartlett Rich, Superintendent and Admitting Physician, at the Hospital. Preference is given to those who, from various causes, are dependent upon the city for support; but when room can be given, paying patients will be admitted, and will receive skillful treatment.

WORCESTER LUNATIC HOSPITAL.

Trustees—Thomas H. Gage, M. D., Worcester; Col. John D. Washburn, Worcester; Prof. James B. Thayer, Cambridge; Dr. Robert W. Hooper, Boston; Rufus D. Woods, Enfield.

RESIDENT OFFICERS:—*Superintendent*—John G. Park, M. D. *Assistant Physicians*—Enoch O. Marston, M. D.; A. R. Moulton, M. D. *Steward*—Clarence Buffinton. *Matron*—Eliza J. Gordon. *Clerk*—J. W. Brigham. *Engineer*—Alpheus Young. *Farmer*—Joel B. Hinckley. *Treasurer*—Albert Wood.

The Worcester Lunatic Hospital was opened January 18, 1833, and has received nearly 12,000 patients. After long delay the new building begun in 1873, was completed and occupied in October, 1877. The site, between Millstone Hill and Lake Quinsigamond, possesses every hygienic advantage, excellent drainage, freedom from noxious emanations, sunny exposure, and ample grounds. The valley of Lake Quinsigamond with the surrounding hills dotted by farm houses and villages, is a charming, ever changing panorama. At present, there are about 500 inmates, but the institution can provide for a much larger number, and can give extra accommodations, suits of rooms, special attendance, etc., to those who may desire it.

ASYLUM FOR THE CHRONIC INSANE.

Superintendent—Hosea M. Quinby, M. D.; *Asst. Physician*—Wm. H. Raymenton, M. D.; *Steward*—Mr. C. H. Safford.

The Board of Trustees is the same as for the Worcester Lunatic Hospital.

The Asylum for the Chronic Insane was established in accordance with an Act of the Legislature of 1877, and was opened Oct. 23, 1877. The inmates of the Asylum consist only of such chronic insane as may be transferred thereto from other hospitals by the Board of State Charities.

WATER DEPARTMENT.

Under charge of the Joint Standing Committee on Water.

Water Registrar.—J. Stewart Brown; salary \$1,200; chosen annually in January, by City Council, in concurrence.

Water Commissioner.—Frank E. Hall; salary \$1,900; office hours, 10 to 12½ P. M.; chosen annually in January, by City Council, in convention.

The Water Works were begun in May and finished in November, 1864.

The dam and reservoir at Lynde Brook, located 5½ miles from City Hall, was completed Nov. 11th, 1864. The Lynde Brook Dam was raised in 1870 and 1871 to flow 143 acres. It was carried away by a freshet, March 30, 1876, and a new dam was finished June, 1877. Area of water shed 1870 acres. The depth of water at dam is 37.4 feet—the capacity of reservoir is 681,000,000 gallons—elevation above City Hall is 481.25 feet. Hunt Reservoir, used for distribution, has a capacity of three million gallons.

Number of fire hydrants set in city 611; number of stop-valves 704; number of service pipes 4,971; number of meters 3,465. Number of miles of main pipe 77.3; miles of service pipes 42.7.

Total cost of water works to Dec. 1, 1879, \$1,247,381.39. Income from water rates for financial year ending Dec. 1, 1879, \$73,149.40.

WATER RATES.

The following annual rates are established by the City Council:

Families.

Section 1. In dwellings occupied by one family or more, for three persons or less in each family, five dollars; families of four and five persons, six dollars; and one dollar additional for each person over five in a family; provided that dwellings occupied by a single family shall be charged not less than five dollars. In dwellings occupied by more than one family where but one faucet is used by all the families, fifty per cent. of the foregoing rates shall be charged to each family.

Boarding Houses.

Sec. 2. Having a number exceeding ten persons in all inclusive of the family, shall be assessed 75 per cent. of the foregoing rates.

Sinks and Basins.

All sinks more than two in general use shall be assessed one dollar each, and all wash basins in general use more than two shall be assessed fifty cents each.

Water Closets.

Sec. 3. In dwellings or tenements, not including boarding houses, where only a single water closet is used, four dollars shall be assessed therefor, and for each additional water closet two dollars shall be assessed.

Water closets in Boarding Houses.—For one water closet,

from five to ten dollars will be charged; and for each additional closet, three dollars.

Water closets in dwellings used in common by several families, from six to fifteen dollars, according to the number of families and persons using.

Baths.

In dwellings or tenements, for a single bath tub, five dollars will be assessed; and for each additional tub, two dollars.

In boarding houses, one bath tub, from four to ten dollars; and for each additional tub, three dollars.

Stores, Offices, Shops.

Sec. 4. For each store, office, warehouse, machine or other shop or foundry, fifty cents shall be assessed for each individual using water in sinks and urinals, provided that no assessment on any such premises shall be less than four dollars.

Saloons, Markets.

For eating houses, fish and other markets, provision shops, refreshment or oyster saloons, or for purposes not included in any other classification, from four to fifty dollars.

Water Closets in Stores.

For water closets in stores and eating houses, from three to ten dollars.

FOR CONJUGAL CONDITION, *Of Inhabitants of Worcester, Consult the Directory.*

Persons counted.—In ascertaining the number of persons as a basis for assessments provided for in this and the preceding sections, children and servants shall be counted.

Stables.

Sec. 5. Owners of stables where one horse is kept shall be assessed three dollars; where two horses are kept, five dollars, and one dollar and a half for each additional horse.

Carriages.—Water will be allowed for washing one carriage for each horse kept, without additional assessment.

Truck horses.—Owners of stables where truck horses are kept shall be assessed one dollar each, provided that no assessment shall be made less than three dollars.

Cattle.

Owners of stables where neat cattle are kept shall be assessed one dollar for each.

Watering troughs in pastures, at such rate as may be fixed by the Committee on Water, based upon the use and location.

Hand Hose.

Sec. 6. Hand hose in general use for washing windows, sidewalks and store fronts, for twenty-five feet in length of sidewalk or front or less, four dollars; and for each additional five feet or fractional part thereof, eighty cents. For use of hose for sprinkling gardens or streets 5000 square feet or less, five dollars.

For all other uses of hose at such rates as may be fixed by the Committee on Water.

The use of all hose will be restricted as per section seventeen in "Rules and Regulations." (See page 378.)

Building Purposes.

For each cask of lime or cement used, six cents, provided that no assessment on any building be less than six dollars.

Metered Water.

Sec. 7. Metered water.—Where the quantity of water used is determined by meter, the assessment per 1000 gallons shall be at the following rates:

For 1000 gallons per day, or less, the sum of twenty-five cents per 1000 gallons.

For 1000 to 5000 gallons per day, the sum of twenty cents per 1000 gallons.

For from 5000 to 15,000 gallons per day, the sum of fifteen cents per 1000 gallons.

For all amounts to any single consumer over 15,000 gallons per day, at such special rates as may be fixed by contract with the Joint Standing Committee on Water, provided no such contract shall be made to extend over one year from the date thereof.

The City will set meters upon any premises where the Joint Standing Committee on Water determines so to do; and on all premises where the meters are set the owner of the premises will be held thereafter to pay the rate according to the foregoing schedule for the entire amount of water used upon such estate, irrespective of all under leases, or any individual consumer or individual consumers, upon such estates. Whenever a consumer shall prefer to pay the cost of such meter as shall be approved and set by the Joint Standing Committee on Water, together with the cost of the setting thereof and its maintenance thereafter, he shall pay rates thereafter by the foregoing schedule.

All meters set on private estates shall be subject to the inspection and control of the Water Commissioner, or such agent or officer as the Committee on Water shall designate to have the care and supervision of meters.

The officer whose duty it is to care for the meters in the City, or his agent, shall have free access at all times upon the premises of the owner thereof for the purpose of reading the meter, or he may remove a meter at any time for the purpose of testing the accuracy of its measurement, and when any meter shall be found incorrect in measurement and unworthy further use, such meter so condemned will be replaced at once by one which is approved by the Committee on Water, at the expense of the owner thereof.

Whenever any consumer elects to pay rate by meter, he shall ever after be held to pay rate thereby, until released therefrom by the Joint Standing Committee on Water.

FOR HACK FARES,

CONSULT THE
DIRECTORY.

Where the rate to any single consumer by any mode of assessment is over fifty dollars per annum, the Committee on Water may set on such estate a meter at the expense of the city.

The rate by meter measurement in all cases where they are used shall take precedence of all other modes of rating named in this Ordinance.

No meter will be allowed to be set or used on the Water Works, unless approved by the Joint Standing Committee on Water.

Sec. 8. Used by City.—Water supplied to the various departments of the city shall be assessed at the rate of fifteen cents per 1000 gallons, the amount to be charged to the department so supplied.

Hydrants.—Hydrants set by the city shall be assessed twenty-five dollars each, but hydrants and fixtures set and maintained by individuals, at their own expense, for the protection of their own property against fire only, shall not be assessed.

Watering Streets.

Sec. 9. Water supplied for the purpose of watering streets shall be furnished by special contract with the Joint Standing Committee on Water, and no contract shall be made under this section for a longer period than one year.

Sec. 10. Where no specific rates are fixed by this Ordinance for water, the Joint Standing Committee on Water shall have power to fix such rates.

REGULATIONS.

The following regulations are considered a part of the contract with all parties taking and using water from the Worcester Water Works:

Section 1. All service pipe and its appendages, laid in the streets, shall be furnished and maintained at the expense of the city.

Sec. 2. All pipes and their fixtures upon the premises outside of the buildings of any taker shall be furnished and laid by the city at the expense of said taker, who shall maintain and protect the same from frost and other injuries.

Sec. 3. No person shall permit or allow any waste of water, and no person shall supply another with water who is not entitled to use the same.

Sec. 4. Those who pay water-rates shall be held by the Department liable for such repairs of the fixtures upon the premises occupied as shall be ordered, or made by the Committee on Water, to prevent waste of water.

Sec. 5. No damages shall be allowed any taker for shutting off water for the purpose of doing ordinary repairs on pipes, gates, hydrants or other fixtures, or for adding and inserting new ones, or for changes of pipes, at any time, from one size to another, or for lowering and raising pipes in any street or highway; but twelve hours' notice shall be given to all takers before their supply of water shall be cut off, except in cases of great emergency.

Sec. 6. The Water Committee or any agent or officer authorized by them shall have access at all times to all premises where water is used, for the inspection of the condition of the fixtures, or setting, using or repairing meters, and also for cutting off the water from any delinquent taker by closing any faucet or cutting any pipe or pipes necessary to effect the object desired.

Sec. 7. No new fixtures shall be put in, or alterations made in old ones, by which the consumption of water is increased without the consent of the Water Committee. All plumbers doing business in the city shall, on the first of every month, make full returns to the Water Registrar of the character and description of all work done by them connected with the Water Works during the month preceding. Any failure to report when requested, or any intentional concealment of work done, will subject the offender to a fine of twenty dollars for each offence.

Sec. 8. The regular Water Rates shall be payable annually in advance on the first day of June, at the City Treasurer's office. On the tenth day of June annually the City Treasurer shall send notice by mail or otherwise to all persons who have not then paid their bills for

COURT RECORD,

water, and all bills remaining unpaid on the twentieth day of June shall be sent out for collection, and 10 per cent. additional shall be charged for collection.

Sec. 9 repealed.—Sec. 1 of Ordinance passed May 7, 1877, substituted: "If bills for water, or for service pipe, materials and labor furnished, are not paid within forty days after notice from the City Treasurer that the same are in his office ready for payment, the water shall be shut off from the premises which are supplied, and shall not be turned on again until all bills are paid, and in addition thereto two dollars for the expense of shutting off and letting on the water."

Sec. 10. All applications for service pipe, or for the use of water, must be made in writing at the office of the Water Registrar, by the owner of the premises or his agent, and must state fully and fairly all of the various uses to which the water is to be applied, and said owner will be held to pay all water rates upon said premises so supplied, irrespective of individual consumer or consumers or any tenant occupying the same.

Sec. 11. Whenever two or more several parties of families are supplied with water from the same service pipe, and any one of said parties refuses or neglects to pay the water rate when due, or to comply with the published rules and regulations, the Committee on Water may withhold all supply from such service pipe without liability in damages to either of the other parties who may have paid his or their annual assessment.

Sec. 12. Water takers will be charged two dollars for shutting off and letting on water at the street mains for the purpose of repairs or extensions of services upon their premises. Water takers will be charged for all services rendered upon their premises for thawing out frozen pipe, or repairing the same in any manner, or for removing obstructions from their pipes. Twenty-four hours' notice will be required for letting on or shutting off water. Plumbers are hereby prohibited from opening or closing any service stop at the mains without permission from the Committee on Water.

Sec. 13. The construction and location of private fire and other hydrants or fountains shall be subject to the approval of the Committee on Water, and no charge will be made for water used from hydrants for fire purposes exclusively.

Sec. 14. All injuries to service pipe or street mains caused by careless undermining, and repacking of the earth so excavated, for the purpose of putting in any sewer, drain or other pipe, or any excavation by which any pipe, hydrant, or other fixture shall be exposed, shall be chargeable to the person authorizing or causing such injury, and the expense of repairing the same shall be charged to such person, and may be recovered in an action of contract.

Sec. 15. No person shall tap any street main or service or other distributing pipe without authority so to do from the Committee on Water.

Sec. 16. No person except a fireman in the legitimate discharge of his duties as a fireman of the City of Worcester, shall open any hydrant, or stop cock, without the consent of the Committee on Water; and no person shall place any building material or other article, or rubbish of any kind, on any hydrant, stop cock, or other fixture so as to hinder the free access to and use of the same.

Sec. 17. The use of hose for washing windows and sidewalks, sprinkling streets or gardens, will be allowed, not exceeding two hours per day—one hour before eight o'clock, A. M., and half an hour between twelve and one, and half an hour after six o'clock, P. M. The use of hose in the public streets will be restricted to the hours above given.

Sec. 18. No person or party except an officer or agent authorized by the Committee on Water, shall at any time remove any meter or fixtures connected therewith which has been set or used by the department.

Sec. 19. Any person who shall violate any of the foregoing sections shall be liable to a fine of not less than five nor more than twenty dollars, for each separate offence.

Librarian.—Samuel S. Green. Salary, \$2500. Office hours, 10 A. M. to 1 P. M., 3 to 6 P. M.; Saturdays, also, 7½ to 8½ P. M.; Sundays, 3 to 5 P. M.

Assistant Librarians.—Sarah F. Earle, Jessie E. Tyler, Lucie A. Young, Ellen L. Otis and M. Jennie Barbour.

These officers are chosen by the Board of Directors.

The circulating department of the Library is open for the delivery and return of books from 9 A. M. to 8 P. M.; Saturday, open until 9 P. M.

The upper reading room, which is the room of the Green Library, is open from 9 A. M. to 9 P. M., and the lower reading room from 8 A. M. to 9½ P. M.

Sunday, Green Library and both reading rooms open from 2 to 9 P. M.

The circulating department of the Library contains 18,758 volumes. These books can be freely used by citizens who have reached the age of fifteen years. *Occasionally*, temporary residents are allowed the use of them, by giving satisfactory guarantees of their return.

There is an intermediate department of 9,650 volumes. Books in this department can be taken out under certain restrictions.

The reference department, or Green Library, consists of 19,113 volumes. These were most of them given to the city by the late John Green, M. D., or have been purchased with the income of the fund left by him to endow this department. By a condition of Dr. Green's will they must be read in the building, every facility within the limitation of the will being given for their perusal. Valuable books on a great variety of subjects are to be found in this department. Special pains have been taken to collect Dictionaries and Encyclopedias in all branches of knowledge; and books likely to prove useful in developing the industries of the city, or in assisting mechanics, will be freely purchased in the future as in the past. New York, Boston, New England, and Philadelphia Directories, and late editions of comprehensive Atlases, can always be found in the Green Library.

A manuscript catalogue is kept, closely written up, for the use of book-seekers and officers of the Library.

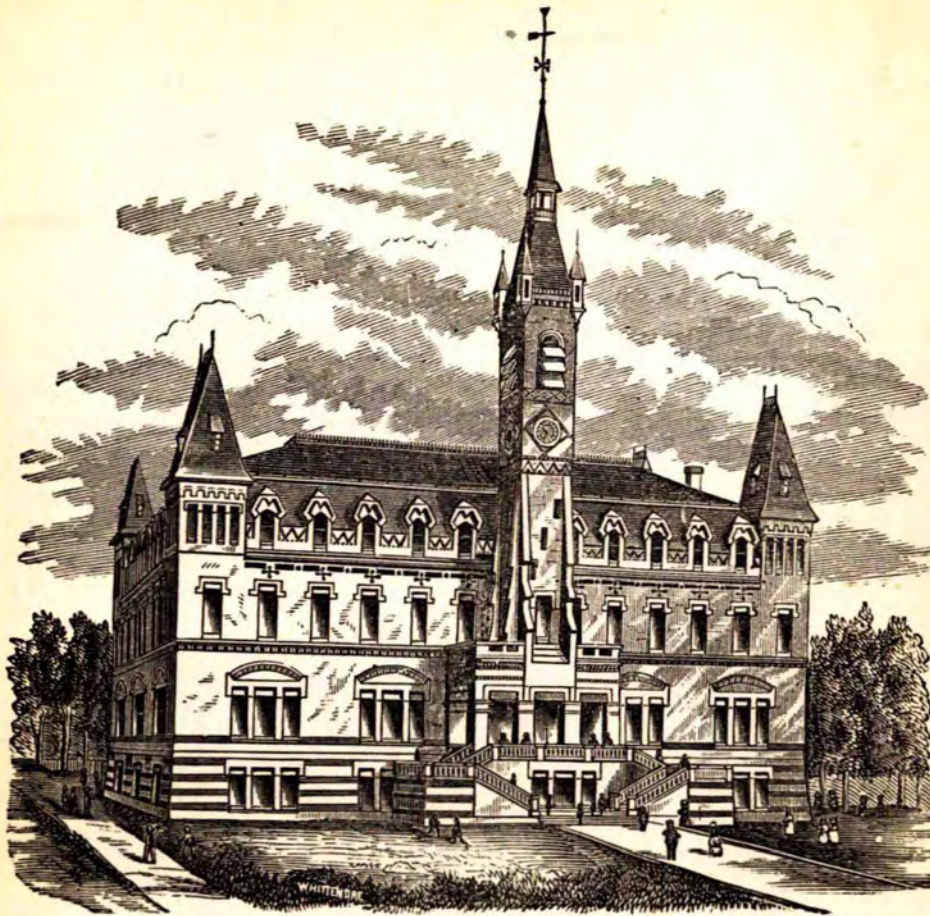

The books of the Worcester District Medical Society are kept in the Free Public Library building, and may be consulted on the same easy conditions which prevail in regard to the use of the Green Library.

The Reading Rooms contain 240 papers and magazines, American and foreign. These include Worcester, Boston and New York newspapers, and news sheets from various sections of New England, the West and South, and from the principal cities of Great Britain; also the principal literary and scientific journals, and the best of the magazines and reviews of England and America. A review and newspapers in the German language, reviews and a scientific journal from Paris, and two Canadian papers, one in the French language, are subscribed for. A specialty is made in the Reading Rooms of papers and magazines which treat of mechanical and other useful applications of science.

The current numbers of Punch, the London News, the Graphic, the Art Journal, and other illustrated papers; also, bound volumes of the same can be seen here.

The Reading Rooms are mainly supplied from the income of a fund of about eleven thousand dollars, subscribed by citizens.

COLLEGE OF THE HOLY CROSS,

WORCESTER, MASS.

THIS COLLEGE was founded in the year 1843, by the RT. REV. BENEDICT JOSEPH FENWICK, Bishop of Boston, and given by him to the Fathers of the Society of Jesus. In 1865 it was incorporated by the Legislature of the State, with power and authority "to confer such Degrees as are conferred by any College in this Commonwealth, except Medical Degrees."

It stands on the heights of Worcester, from which a charming view is had of the City and surrounding country. The location is remarkably healthy, and the buildings large and convenient.

The object of the Institution is to prepare youth for a *Professional*, or for a *Commercial*, state of life.

The Course of Studies in the College embraces, in its whole extent, a period of seven years, of which three are given to the Preparatory and Junior classes, the remaining four to the Senior. The last of these years is devoted exclusively to the study of Rational Philosophy and the Natural Sciences. Each scholar, however, on entering the College, will be assigned to that particular class for which it may appear, after an examination, that he is fitted. Thence he will pass by regular gradation through the rest of the Course.

No student is admitted who has not made some progress in studies, and who has not a good moral character. It will be required of each one to pursue the *Regular Course*, as experience has proved exceptions in this regard to be a source of great inconvenience.*

The study of the French language is a part of the College Course. The other Modern languages may be taught if required; but, together with Music, Drawing, etc., will form additional charges.

The Academic Year begins on the first Wednesday of September, and ends on the last Thursday in June.

MEMBERS OF THE FACULTY, AND OTHER OFFICERS.

REV. EDWARD D. BOONE, S. J.,

President, and Prefect of Studies.

REV. ALBERT PETERS, S. J.,

Waldo Cutter, B. S.; *Instructor in Field Work and Topography*, A. M. Chapin, C. E.; *Lecturer in Geology*, Thomas Sterry Hunt, LL. D.; *Assistant in Chemistry*, Walter Barnes, B. S.; *Superintendent of Machine Shop*, Milton P. Higgins. (*See business notice, pages 528 and 529*).

The spacious and elegant buildings erected for the use of this new educational enterprise having been finished, the school was commenced on Tuesday, November 10, 1868. On the following day the edifice, "properly called BOYNTON HALL, in honor of the founder of the Institute," was dedicated by appropriate public services. The history of the origin and early progress of the Institute has been given in previous numbers of the Directory, with lists of the principal contributors to its funds. A description of the buildings, &c., was printed in the Directory of 1869.

The object of the Institute is to furnish a training school for young men of moderate means, or even without means, in which they can receive an education in the branches not usually taught in high schools and academies, combined with practical instruction in the mechanical and scientific pursuits. Book learning is combined with trade learning, and the student receives the benefit of a school, and at the same time a thorough knowledge in the scientific part of the trade or profession he proposes to follow, inculcated by the practical application, from day to day, in the machine shop or laboratory, of the scientific facts obtained from books or lectures. The ultimate aim of the Institute is the elevation of the mechanic, by giving him thorough and complete scientific knowledge on which he may base his future work. It is intended that any graduate from the department of mechanics shall be fitted to assume the responsibility of superintending any department of mechanical work to which he has turned his attention, and to understand not only its practical details, but also its scientific principles.

Any graduate from the department of civil engineering shall be qualified to do any work required of civil engineers, and any chemist or designer shall be ready for work required of him. Conditions of admission: Knowledge of the common English branches and algebra.

Instruction free to residents of Worcester county. To others, \$100 a year. The School year is divided into two terms. Number of students, 97. Instruction given by recitations, practice and lectures.

RECITATIONS.—The classes recite in small divisions, and time enough is allotted to each recitation to secure the utmost thoroughness. The adjustment of the different elements in the course of study, and the time assigned to each, are set forth in the hour plan.

PRACTICE.—At the middle of the junior year each student chooses a department, under the advice of the instructors, and from this time to the end of the course devotes to it his practice time of ten hours each week, and the whole of the month of July; the mechanical engineers in the shop, the architects in an architect's office in the city, the civil engineers in the field, and the chemists in the laboratory. All the students are required to attend these exercises.

DEBT OF WORCESTER,

**CONSULT THE
DIRECTORY.**

LECTURES.—These are given by the professors and by non-resident professors, on various subjects. The students are in all cases required to pass an examination on the lectures.

EXAMINATIONS.—Written examinations are held twice a year, and the rank of the student is thus determined. Reports of these examinations are sent to parents and guardians. At the annual commencement, the senior class is subjected to a public examination conducted by a committee invited from the community at large.

Worcester County Horticultural Society.—Organized 1840. Incorporated 1842. *Pres.* Stephen Salisbury, jr.; *Vice-Presidents*, Stephen Salisbury, Philip L. Moen, and O. B. Hadwen; *Sec.* Edward W. Lincoln; *Librarian and Treas.* Charles E. Brooks. The annual autumnal exhibitions of the Society for years attracted attention, and gave great impulse to the cultivation of fruits and flowers. Latterly a further advance was made in the same direction, by the establishment of weekly exhibitions on each Thursday afternoon. Within the past few years, the operations of the Society, and the demands of the public for better accommodations for concerts, parties and the like, have required so much more space, that Horticultural Hall has been thoroughly renovated, being also enlarged and supplied with all modern conveniences. The Hall of Flora spans the Front, measuring about 25x47 feet, over which is another similar Hall of Ceres, which can be used separately or in conjunction with any or all the other rooms. The main Hall of Pomona has a commodious stage and ample gallery accessible by two easy flights of stairs. It is one of the most desirable halls in the city for balls, concerts, lectures, parties and gatherings of every kind. It is seated with the best of cane-seat chairs, all nicely lettered and numbered, on the floor, and also in the gallery, with a plan

of the same, to enable parties using the hall to sell reserved seats. Forty nice tables can be had with the hall when needed, and each table can be put up in a moment. A select library of nearly 2,000 volumes is open to the members daily, the librarian, by a recent regulation of the trustees, having his office always accessible within the building. Officers chosen on the first Wednesday of November.

Worcester Co. Law Library Association.—Organized 1842. Composed of the members of the Bar of the County. Library at South Court House. *Directors*, T. L. Nelson and Geo. F. Verry; *Clerk and Librarian*, Wm. T. Harlow; *Treas.*, F. A. Gaskill. The Library is one of the most extensive and valuable in New England, containing upwards of 3,000 volumes. The books may be consulted by the citizens of the County as well as by the Court and Bar. Officers elected in March. Meetings held at the Library.

Worcester Co. Mechanics Association.—No. 321 Main street, Incorporated 1842. *Pres.*, Samuel D. Nye; *Vice Pres.*, Charles G. Reed; *Clerk and Treas.*, Wm. A. Smith; *Janitor*, Charles W. Wentworth. Library open Monday and Wednesday evenings, and Saturday, afternoon and evening. Volumes in Library, over 5,500. Reading room open to members every day and evening, Sundays excepted. A course of popular lectures is provided by this Association each winter. Number of members about 1,200. Annual meeting second Tuesday in April. "Mechanics Hall," the main hall in the building owned by the Association, is 130x80 feet above the galleries, with a seating capacity of 2,000. Washburn Hall seats 600. Both halls are furnished with scenery for theatrical representations.

Worcester Co. Musical Association.—*Pres.*, Hon. Wm. R. Hill, Wilkinsonville; *Vice Pres.*, Wm. Sumner; *Directors*, B. D. Allen, I. N. Metcalf, C. M. Bent, J. Q. Adams, C. E. Wilder, Daniel Downey, Worcester; Rev. G. M. Howe, Princeton; Israel Plummer, North-

bridge; *Sec.*, A. C. Munroe, Worcester; *Treas.*, J. E. Benchley, Worcester; *Librarian*, G. W. Elkins, Worcester. This Association holds an annual festival in Worcester, in September or October, the object and aims of which are: The improvement of choirs in the performance of church music; the formation of an elevated musical taste, through the study of music in its highest departments; and a social, genial reunion of all lovers of music. The festival continues five days, and eight grand concerts are given, introducing choral works of ancient and modern masters with grand orchestral and organ accompaniment, closing with the performance of one of the great Oratorios, in which the best artists of the country are secured for solo talent.

Worcester Dist. Medical Society.—Organized September 26, 1804, as a subordinate society, under the Mass. Medical Society. The elements of this district organization have been in existence under another form since 1794. *Pres.* Fred. D. Brown, Webster; *Vice-Pres.* Emerson Warner, Worcester; *Sec.* Geo. J. Bull, Worcester; *Treas.* L. Wheeler, Worcester; *Librarian*, Lewis S. Dixon, Worcester. Annual meeting, second Wednesday in May. The Library of the Worcester District Medical Society, was commenced in 1788, by the gift of "fifty pounds value in books," by Dr. Elijah Dix of Worcester. It has since been largely increased by donations from physicians, and by the income of \$6,000, bequeathed for the purpose, by Hon. Daniel Waldo, and of \$500, bequeathed by C. W. Wilder. It contains over 4,000 volumes of the best medical and surgical works, to which additions are constantly made, and which may be consulted by citizens at the rooms only, in exchange for which privilege the city furnishes the free use of the room in the Public Library building.

Worcester Lyceum and Natural History Association.—The Worcester Lyceum was organized in 1829, and was united with the Young Men's Library Association in 1856, under the name of the Lyceum and Library Association. In 1866 the Association, by act of the Legislature, took its present name. Rooms in Worc. bank block, Foster street. *Pres.* T. E. St. John; *Vice-Prests.* Jas. Bushee, Daniel Seagrave; *Cor. Sec.* T. A. Dickinson; *Rec. Sec.* H. D. Braman; *Treas.* Edward O. Parker; *Superintendent of Cabinet*, T. A. Dickinson; *Lecture Committee*, C. A. Chase, C. W. Gilbert, E. O. Parker. The Association has a course of lectures in Mechanics Hall during the fall and winter months, and has public meetings, in its Hall on Foster street, the second Saturday of each month. At these meetings, papers upon scientific subjects are read by members and others, and all persons interested are cordially invited to attend, whether members of the Association or not. Any resident of Worcester county over fourteen years of age may become a member by the payment of two dollars; a reduction from this sum is made to ladies and pupils attending school in the city. The cabinet of the Association, containing several thousand specimens, is open free to the public Wednesday and Saturday afternoons, and to the members and their friends daily. Donations of specimens in Natural History, curiosities and relics are solicited, and may be left with the superintendent, at his room in Bank block, Foster street, or any of the officers. Annual meeting in April.

ALL DIRECTORIES.

ALL DIRECTORIES published in the United States furnished at publishers' rates.

MONEY ORDERS.

Money orders for any amount not exceeding \$50 on one order, will be issued on deposit at this office, and payment of the following fees:

On orders not exceeding \$15	10 cents.
Over \$15 and not exceeding \$30	15 "
" \$30 " " \$40	20 "
" \$40 " " \$50	25 "

INTERNATIONAL MONEY ORDERS.

Money orders issued at this office on Post Offices in all parts of Canada, Great Britain and Ireland, the German States, Switzerland and Italy.

Valuable letters should invariably be taken to the Post Office and registered. The registry fee (*domestic and foreign*), is 10 cents.

The Post Office Department having provided *perfectly safe means* for the transmission of small sums of money by mail, the public are advised *never to inclose money in an ordinary letter*, but in all cases to remit by money order or registered letter.

CARRIERS' DELIVERY.

Mail matter is delivered daily by carriers in the business portions of the city three times; in the intermediate portions twice; and in the outer portions once. The carriers' delivery is *limited* to within the *mile circle*, with the exception of the New Worcester District and South Worcester. Hours as follows: First delivery from 7.30 to 10.00 A. M.; second, from 10.30 A. M. to 3 P. M.; third, from 4.00 to 6.00 P. M. No delivery by carriers on Sunday, but letters can be called for at the Post Office from 9.45 to 10.30 A. M. Also on all other days from 7 to 8 P. M.

RECEIVING BOXES.

Letters are collected from the Street Boxes the same number of times and between the same hours that deliveries are made, excepting there is an additional collection from the *Main Street Boxes* at 6.30 A. M. On Sunday, collections are made only from the Main Street Boxes from Austin Street to Lincoln Square, at 5 o'clock P. M. Letters should invariably be addressed to street and number.

RATES OF POSTAGE.

Corrected Jan. 1, 1880.

FIRST CLASS MATTER.

On letters, sealed packages, and all mail matter wholly or partly in writing, except as hereinafter provided, **three cents each half ounce** or fraction thereof.

Local or drop letters, where free delivery by carriers is established, **two cents for each half ounce** or fraction thereof.

Postal cards **one cent**.

SECOND CLASS.

Mailable matter of this class embraces all newspapers and other periodicals, publications which are issued at stated intervals, from a known office of publication, and are sent to regular subscribers. The postage thereon is **two cents a pound** or fraction thereof.

THIRD CLASS.

Mail matter of this class embraces books printed and blank, transient newspapers and periodicals, circulars, and other matter wholly in print, proof sheets and corrected proof sheets and manuscript copy accompanying the same, prices current with prices filled out in writing, printed commercial papers filled out in writing (*provided such writing is not in the nature of personal correspondence or does not represent a mone-*

tary value), such as papers of legal procedure, deeds of all kinds, way bills, bills of lading, invoices, insurance policies and the various documents of insurance companies, handbills, posters, chromo lithographs, engravings, envelopes with printing thereon, heliotypes, lithographs, photographic and stereoscopic views, with title written thereon, printed blanks, printed cards; and postage shall be paid thereon at the rate of **one cent for each two ounces** or fractional part thereof.

FOURTH CLASS.

Mailable matter of this class embraces blank cards, card board and other flexible material, flexible patterns, letter envelopes and letter paper without printing thereon, merchandise, models, ornamented paper, sample cards, samples of ores, metals, minerals, seeds, cuttings, bulbs, roots, scions, drawings, plans, designs, original paintings in oil or water colors, and any other matter not included in the first, second or third classes and which is not in its form or nature liable to destroy, deface, or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service. Postage rate thereon **one cent for each ounce** or fractional part thereof.

Third and fourth class mail matter must be *fully prepaid*, or it cannot be forwarded from the office of mailing.

The limit of weight of packages is four pounds.

Third and fourth class matter may be registered.

In addressing mail matter make the address legible and complete, giving full name of person addressed, also the name of the Post Office, county, and state.

All packages of matter of the third or fourth class must be so wrapped that their contents may be readily and thoroughly examined by postmasters without destroying the wrappers.

The sender of any article of the third or fourth class of mail-matter may write his or her name or address on the outside thereof, with the word "from" above or preceding the same, or may write briefly or print on any package the number and names of the articles enclosed.

FOREIGN RATES OF POSTAGE.

Uniform rates of postage are collected in the United States on correspondence exchanged with all countries and colonies of the Universal Postal Union, except Canada, as follows:

For prepaid letters 5 cents per half ounce.

For unpaid letters received 10 cents per half ounce.

For insufficiently paid letters or other articles received a charge equal to double the amount of the deficiency.

For Postal Cards 2 cents each.

For Newspapers, if not over four ounces in weight, 2 cents each, and 2 cents for each additional four ounces or fraction thereof.

For printed matter of all kinds and samples of merchandise not exceeding four ounces in weight, 2 cents; if above four ounces, 1 cent for each two ounces or fraction thereof.

The maximum weight of each package is fixed at 4 lbs. and 6 ounces.

Any packet whatever containing articles liable to customs duty is excluded from the mails.

The Registration fee is 10 cents.

Countries belonging to the Universal Postal Union, to which the above rates apply:—Argentine Republic; Austria; Hungary; Belgium; Bermudas; Brazil; British Colonies on West Coast of Africa, and West Indies; British India; Bulgaria; Ceylon; Denmark; Egypt; France; French Colonies in Asia, Africa, America, and Oceanica; Germany; Great Britain, and Ireland; Greece; Greenland; Italy; Jamaica; Japan; Liberia; Luxemburg; Mauritius; Mexico; Montenegro;

FOR CONJUGAL CONDITION, *Of Inhabitants of Worcester,*
see Census, page 17.

Netherlands; Netherland Colonies in Asia, Oceanica, and America; Newfoundland; Norway; Persia; Peru; Portugal; Portugese Colonies in Asia, and Africa; Roumania; Russia; Salvador; Servia; Spain; Spanish Colonies in Africa, America, Oceanica, and Asia; Singapore; Penang and Malacca; Sweden; Switzerland; Trinidad; Turkey; Venezuela; Hong Kong, Kiung Chow, Canton, Swatow, Amoy, Foo-Chow, Ningpo, Shanghai, and Hankow, in China.

Rates to Canada are the same as in the United States, excepting on patterns and samples of merchandise having no intrinsic or salable value aside from their use as samples. The weight of such packages is limited to eight ounces, and the postage is ten cents per package.

Further information as to Foreign rates will be furnished upon application at the Post Office, Stamp window.

METER REGISTER.

TO TELL THE STATE OF THE METER.—Look at the LEFT HAND face of the Index, and set down the figure of LEAST value next the hand, which on the diagram is 1. Next look at the MIDDLE face, and, as before, set down the figure of the LEAST value next the hand, which on the diagram is 3. Next upon the RIGHT HAND face, take the same relative figure which is 5, and you have the figures 1, 3, 5, to which last figure add two ciphers to represent hundreds, and the sum 13,500 is shown to be the present state of the meter. If a previous observation has been taken, subtract the state of the meter at THAT time from the PRESENT state, and you have the amount consumed in the interval.

REPAIRS, ETC.

Irregularities or failure of supply of Gas should be reported, and applications for service pipes and meters may be made at the Agent's Office.

PRINCIPLES.

<p>CASH in all business. CARE in the selection of risks. PRUDENCE in investing the premiums.</p>		<p>ECONOMY in management. ANNUAL DIVIDENDS of surplus. CONTRIBUTION plan of distribution.</p>
--	--	---

NON-FORFEITURE of Policies secured by the law of Massachusetts.

A FULL EQUIVALENT to the policy-holders for every dollar paid to the Company.

Intelligent persons will insure in the Company which uses in expenses the LEAST, and reserves for the policy-holders the MOST, of what is paid into the treasury.

From the last annual report of the Massachusetts Insurance Commissioner, it appears that the average expenses of the Life Companies doing business in the Commonwealth largely exceeded the expenses of THE STATE MUTUAL. This saving goes directly to the policy-holders of THE STATE MUTUAL.

The Interest alone Received on the Invested Funds of the Company has paid all the Losses by Death during the entire period, from its organization to the present time, and left a Surplus to be applied to other expenses. What other Life Company can show as good a Record?

OFFICE, - - No. 390 MAIN STREET.

CHARLES H. DOE & CO.

The Spy,

DAILY AND WEEKLY.

444 Main Street, - - Opposite City Hall.

THE MASSACHUSETTS SPY was established by Isaiah Thomas, July, 1770, and pronounced in favor of the party of the Revolution. Its editor was, like Samuel Adams and John Hancock, one of the "Traitors" who were to be summarily executed by the British—when taken. But he was not taken; to avoid any interruption of this unpleasant character he removed his Type and Press from Boston, where first established, to Worcester, just before the affair of Lexington and Concord, and the paper has been printed in Worcester ever since.

The last number of the SPY issued in Boston, was dated April 6, 1775. On the 3rd of May, following, the SPY came out in Worcester, with its motto in large type as follows: "*Americans! Liberty or Death! Join or Die!*" The SPY continued a vigorous advocate of the Independence of America, burning like a calcium light through the Revolution. It lived to see the Independence of the United States secured, and has been printed uninterruptedly since, till it scores to-day its one hundred and tenth year.

THE WORCESTER DAILY SPY, which from the first has been distinguished for its vigorous advocacy of Republican principles, has spared no effort to secure always prompt and reliable news. Started when Worcester, now the second city in the State, was but a village, the SPY has grown with its marvellous development, and is intimately allied with its past history, its present interests, and its future progress. The SPY has for more than one hundred years been the chief newspaper of Central Massachusetts, and its circulation, always good, is to-day exceedingly large, not only in the city of Worcester, but throughout the County and State. No New England Journal has a better list of readers and few have a larger one.

The first thing ever printed in Worcester was a copy of the SPY. Then, as now, the SPY was prompt with the news, giving a stirring account of the battle of Lexington. As an illustration of the enterprise of the SPY, before the day of the telegraph, this journal printed in May, 1775, the earliest published contemporary account of the capture of Ticonderoga. This account was the source from which the London periodicals of that date made up their notices of the expedition.

The SPY to-day, by its connection with the Associated Press and its thousands of miles of telegraph wire and submarine cable, is able to give each morning the daily history of the world. Its corps of correspondents will compare in excellence with that of any similar journal. It prints full and accurate market reports, home and foreign, money and stocks, and gives earliest intelligence of all movements in trade and commerce.

The SPY gives special attention to its home news, and its record of passing local events will be found prompt, full and accurate. Its superior staff of reporters and correspondents enables it to excel in this department.

The SPY is the best and cheapest advertising medium through which to reach the readers and buyers of Central Massachusetts. Those having wants to supply or the means of supplying the wants of others, cannot more surely and more profitably reach each other than through the Worcester Spy.

The terms of the Daily Spy are \$8 a year, in advance; otherwise 75 cents a month. The Weekly, \$2 a year.

CEMENT PIPE MACHINE PATENT'S ASSOCIATION

DRAIN, SEWER & CULVERT PIPE

Of 3, 4, 5, 6, 8, 9, 10, 12, 15, 18 and 24 inch Bore.

They stand the most severe tests of acids, improve in strength with age and use, are more perfect in their interior finish than any other pipe made, and are lower in price; extensively adopted by eminent Hydraulic Engineers. The materials of which they are composed—the best brands of Hydraulic Cement, and sharp, clean Sand—render them especially adapted to Street, Sewer and House Drainage. They are impervious to the action of all sewage matter and frost. They are largely used for sewage purposes in all the principal cities of the Union, and for culverts under heavy railroad embankments.

Why is Cement Pipe better than other materials that have always been used for such purposes? 1st.—They do not corrode and rust out like cast iron, nor decay like wood and clay structures. They have smoother interiors than brick, give less friction, greater flowing capacity of the same calibre; less liable to get obstructed with sediments, more durable, require less time and excavating to lay them, which is of great importance in business streets, and where trenches are liable to cave; they can be laid by any laborer of good judgment and care; in case they prove too small for the demand, they can be taken out and relaid elsewhere, without injury to the pipe. 2d.—They are from 25 to 50 per cent. cheaper, taking into consideration all of the above points. The continual repairing of other drains and sewers often amounts to more than the cost of the Cement Pipe, which is a practical, durable and sure thing; it also improves with use and age. For cheapness, quality, perfection and variety it is unsurpassed.

THIS STAND

Can be lowered or raised to any required height, top set at any inclination, and by turning back the screw at the right it is allowed to rotate so as to bring either side in front. All the top surface is covered with a smooth, polished brass plate, which can be turned with equal facility, as Reading or Speaking Stand, Writing Desk, Draughtsman's Stand, Artist's Easel, Study Table, &c.

It is just what has long been needed to hold large books for reference. THE BEST THING FOR DRAUGHTSMEN, enabling them to incline their work at pleasure. THE MOST PERFECT ARTIST'S EASEL, for, by a touch, the light on the picture may be entirely changed. It is also useful in the office, counting room, library or sitting room, with solid black walnut top, and its tasteful appearance makes it equally desirable in the office, counting room, library or sitting room.

L. J. KNOWLES & BROTHER,

MANUFACTURERS OF

L. J. KNOWLES' PATENT FANCY LOOM.

(Gold Medal awarded at the Mechanics Fair, held at Boston, Oct., 1874.)

For Weaving all kinds of Fancy Goods,

Either Cotton or Wool, heavy or light, with KNOWLES' PATENT DROP SHUTTLE BOX. Every motion of this Loom is Positive, and cannot make a mispick, either on the harness motion or Drop Box, and can be run at great speed.

We also manufacture a new PATENT CAM LOOM, with or without Drop Box, from two to eight harnesses, as desired.

We also manufacture a TWELVE HARNESS CHAIN LOOM, intended to take the place of the common Cam Loom,

IT HAS A CAPACITY OF TWELVE HARNESES,

with any length pattern required, and can be changed to any desired fancy pattern in a few moments, and thus avoids the delay and expense usually attending a change in the style of goods in mills where this is obtained by change of cams.

This Loom meets a want long felt by a class of Woolen Manufacturers who desire to make frequent changes in the style of their goods, and yet wish to avoid the complications of the ordinary Fancy Loom—as this Loom when set on any pattern, is as ready to do its work without any attention as the simplest plain Loom known. It will run with great speed, is very easy on the warp, and requires no more attention than any cam Loom.

We have now manufactured the Hand Ratchet Press for many years, and it has proved itself adapted to the wants of manufacturers to a certain extent, but we have for a long time felt the increasing want of a Press which would save the time of a number of men necessary to work the Hand Press, and which would be suitable for those mills not requiring a Hydraulic Press. We now offer to our patrons, as the result of our experiments in this direction, **Our Patent Combined Hand and Power Screw Press**, which combines all those qualities which are necessary to make a **PERFECT PRESS**.

L. COES'

GENUINE IMPROVED PATENT

SCREW WRENCHES,

Manufactured by

L. Coes & Co.,
WORCESTER, MASS.

Established in 1839.

Registered March 31, 1874.

We invite the particular attention of the Trade to our New Straight Bar Wrench, *widened*, full size of the larger part of the so-called "re-inforced or jog-bar." Also, our enlarged jaw, made with ribs on the inside having a full bearing on front of bar (see sectional view), making the jaw fully equal to any strain the bar may be subjected to.

These recent improvements in combination with the nut inside the ferrule firmly screwed up flush, against square solid bearings (that cannot be forced out of place by use) verifies our claim that we are manufacturing the strongest wrench in the market.

All Kinds of Light Jobbing.
Also, Cutting Blocks for
Leather or Paper.

The Patent Tool Holder.

It is for holding brad awls, and has great advantages over all other holders.

1. You never take the awl out of the handle to change it as is the case with all others.

2. Upon screwing up the thumb nut it is impossible to pull the awl out of its socket.

3. The six awls can all be changed in the time it takes to change one awl in the old way; beside, you can never drop or lose them.

4. The awls are made of the best of steel and temper.

5. The workmanship is first-class, far superior to anything of the kind in the market.

6. It will last a lifetime with fair usage.

PRICE

HOWES' BUSINESS COLLEGE
AND MR. & MRS. C. C. FOSTER'S
ENGLISH, CLASSICAL & COMMERCIAL SCHOOL COMBINED,
476 Main Street, Taylor's Building, Worcester, Mass.

It is the design of the Proprietor of this School to carry out such a course of instruction as would be best suited for those preparing to engage in the active duties of commercial life, and for the requirements of business generally. The primary object to be attained is to combine practice with theory in such a manner as not only to give the student a knowledge of the science of Book-keeping and the other branches taught, but also of their practical application. Those who have been out of school for a time will find this a pleasant institution where special personal attention will be given. Excellent facilities afforded to those who attend from adjoining towns in the afternoon session. Special attention is called to our Book-keeping and Business Department, as not equaled by any in the city or state. Students can pursue any studies they may desire. Tuition payable in advance.

PATENT
MAGNETIC METAL SEPARATOR,

A recently invented machine for separating iron turnings, filings, &c., from brass, composition and other material.
 Its capacity and utility for this kind of work surpasses anything ever before offered to the public, doing its work most thoroughly, and with the least amount of labor or trouble. The machine is not only a great labor-saving device, but brass stock treated with it is much improved, as it is so thoroughly cleansed that it may be used for the best of work.
 The machine may also be used for separating iron from emery.

CLIFFORD'S

PATENT

Printers' Roller Composition.

This Composition is acknowledged by all printers who are using it to be superior to any Composition known. Rollers made from it are most durable, if taken proper care of. At the office of JOHN WILSON & SON, CAMBRIDGE, MASS., this Composition has been thoroughly tested. After being one year in use, rollers made from it are working well in that office. This Roller Composition requires longer time to season, and more care at the commencement, but for all the care taken of it, it will pay well. There is not an office where it is used that will not tell of its *durability*, and also that it never requires to be washed while working black ink. The largest office in New England would not have procured about one thousand (1,000) pounds of this Composition within the past year, if it was not good. Manufactured and sold only by the patentee.

F. WESSON'S
CELEBRATED
BREECH LOADING RIFLE.

No. 2, MID-RANGE RIFLE,
FOR SPORTING AND HUNTING. ACCURATE 600 YARDS AND UNDER.

The great Superiority of these Rifles consists in their Simplicity, Accuracy, Penetration, Convenience, Durability.

SIMPLICITY.—It is impossible to load this Rifle wrong. Half cock, pull forward the trigger, and the barrel will rise at the breech; insert the cartridge, press the barrel back to its place, and it is ready to cock and fire.

ACCURACY.—It shoots where it is aimed.
PENETRATION.—Remarkable—all that is desired.

CONVENIENCE.—It is light, well balanced, handles pleasantly, requires no cleaning until you have done your day's work, and then one patch will clean it. By the removal of one screw the barrel can be detached from the stock and the Rifle packed in a small space.

RECENT IMPROVEMENT.—Patented April 9, 1872, which consists of an adjustable hammer or cock so arranged as to fire both rim and central fire cartridges. This improvement has long been sought for, and by the use of the central fire cartridge, which is reliable many hundred times, the very best of rifle shooting is obtained.

DURABILITY.—The barrels are made of the finest steel, and the whole workmanship is without fault. There is no complicated machinery to get out of order. While the Rifle is light, everything is compact, firm and strong. In a word, it is justly pronounced "The best Breech-Loading Rifle yet constructed for Hunting or Sporting purposes." I also make a double gun, one barrel Rifled, the other for Shot-Breech-Loading. Also, Long and mid-range rifles. New models for Creed-moor practice, or killing large game. All kinds of Gun-Repairing done to order.

PRICES :

24 inch barrel, open sight..... \$25.00
Each additional inch in length of barrel..... .50
Globe sight \$5.00 extra.
