Three sheets Periodical.

MASSACHUSETTS CATARACT,
AND
WORCESTER COUNTY WATERFALL.

This is a large Temperance, Family Paper,—devoted to Total Abstinence, Morals, Education, Useful Arts, Domestic Economy, and General Intelligence, (*exclusive of Politics, Sectarianism, and all advertisements of intoxicating drink-selling establishments,*)

Jesse W. Goodrich, Editor,

and is published weekly at Worcester at only ONE DOLLAR per annum. Its weapons against Alcohol are *moral suasion alone* for the drunkard, and *moral, legal, and money suasion combined* for the drunkard maker. As this Paper is permanently established, subscriptions may *safely* be paid *in advance*; and as its weekly editions average about 3000 copies,—a circulation not much, if any, exceeded by that of any other Country Paper in the State,—business men, and writers for the *tee-total Press*, will of course see the advantage of making it *one* of the channels of presenting their advertisements and other communications to the public. Post Masters will frank all letters containing cash, or orders for the paper, and subscriptions for any period not less than three months are respectfully solicited of the friends of cold water.

**EXTENSIVE
HAT, CAP, & FUR
STORE.**

I have in Store a large and valuable stock of all kinds of Goods embraced in my line,—the materials having been purchased at *Auction*, and of the *Importers* in New York for *CASH*, and have been manufactured in the best manner under my own care for the *WHOLESALE* and *RETAIL* trade. My *Manufactory* being immediately connected with the Store, any article can be made up at very short notice. I am resolved that *ALL* who call or send to me for Goods shall feel that they get paid for their trouble, and should any article not prove in every particular as good as recommended, I should esteem it a favor if the purchaser would call, and satisfaction will be promptly made.

STATISTICAL AND HISTORICAL NOTICES.

There were in Worcester in 1718, if the evidence of the proprietary records is to be credited, fifty-eight dwelling houses. Tradition says they were humble edifices, principally of logs, one story high, with ample stone chimneys. Some were furnished with windows of diamond glass, where the resources of the proprietor afforded means for procuring such luxury; the light was admitted in many, through the dim transparency of oiled paper. Worcester, probably, contained at this period, about two hundred souls.

In 1722 the town was incorporated, and on the 28th of September of that year the inhabitants convened in their first town meeting, when Jonas Rice was chosen Town Clerk; Nathaniel Moore, Nathaniel Jones, Benjamin Flagg, Jonas Rice, and John Gray, Selectmen; Daniel Heywood, Treasurer.—*Lincoln's History of Worcester.*

In 1840, the No. of inhabitants was 7,497; and at the present time is believed to be not less than 10,000.

The number of Marriages from May 1, 1843 to April 30, 1844, was 89; the number of births, 263.

The number of deaths from May 1, 1843 to April 30, 1844 was 160. The ratio of deaths to population in 1830 was 1 in 61; in 1831, 1 in 61; in 1832, 1 in 65; in 1833, 1 in 70; in 1834, 1 in 80; in 1835, 1 in 63; and in 1843, 1 in 63.

The present number of names on the roll of the Society is 3800, many of whom have been reclaimed through its influence, and rendered useful members of the community. Its meetings are held every Monday evening, in the Town Hall.

The officers are elected three times a year, and serve four months. August 1844, Wm. C. Barbour was chosen President; D. T. Warren and Marson Eaton, Vice Presidents; C. K. Hood, Rec. Secretary; E. Burritt, Cor. Secretary; James Shepherd, Treasurer.

### TEMPERANCE REFORMERS of WORCESTER.

A Society with this name was organized Aug. 6, 1844, having for its objects, "the reformation of the inebriate, and by every reasonable and pacific means, to persuade the seller of intoxicating drinks to abandon the traffic." It has thus far been very successful,

and now, (Oct. 1.) numbers about 250 male members. Meetings every Monday evening, at Brinley Hall.

Henry Kendall is President; Jason Jenkins, Vice President; J. B. Ripley, Secretary; Seth Puffer, Treasurer.

### THE RURAL CEMETERY

Is situated on Grove Street, North of the village. The ground is well situated, and tastefully laid out and ornamented. It is divided into lots of convenient size, many of which have been purchased by the citizens of the town, and several of them are embellished with neat and chaste monuments and other appropriate fixtures; thus rendering the spot a place of frequent and agreeable resort. The price of the lots was very properly put so low as to come within the means of the great mass of the community.

**IMPROVED****ARTIFICIAL LIMBS.**

The subscriber, formerly of WEST BROOKFIELD, has removed to WORCESTER, MASS., where he continues to manufacture

upon the most approved principles. He has the advantage of more than 30 years experience in the business, in which time he has made several hundred Limbs for the unfortunate,—Ladies as well as Gentlemen,—from nearly every State in the Union, to whom he would refer for testimonials as to his ability to furnish a good article.

Having procured, at considerable expense, all the recent improvements in the manufacture of Artificial Limbs, in England as well as in this country, (including the celebrated Anglesea Leg,) he is enabled to warrant his work equal, in every respect, to the best that can be obtained, while his terms are much more reasonable than those of any other manufacturer. ¶ Any person wishing to obtain the best Limb that can be made, or any information on the subject, will please address, (POSTAGE PAID,)

**For Coughs, Colds, Asthma, and  
CONSUMPTION!**

The **GREAT AND ONLY REMEDY** for Colds, Coughs, Asthma, and **CONSUMPTION**, is the **HUNGARIAN BALSAM OF LIFE**, discovered by the celebrated Dr BUCHAN of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the **WORST POSSIBLE CASES** that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as **CONFIRMED AND INCURABLE**. The Hungarian Balsam has cured and will cure the **MOST DESPERATE OF CASES**. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

☞ Sold in large bottles, at \$1 per bottle, with full directions for the restoration of Health.

Pamphlets containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the Agents, gratuitously.

**CELEBRATED ENTIRELY VEGETABLE**  
**PURGATIVE PILLS:**

*For purifying the Blood from all kinds of Humors, preventing Consumptions, Fevers, Dropsies, Piles, Headache, Costiveness, and various other Complaints caused by impurity of the Blood.*

Since I have introduced my UNIVERSAL FAMILY PILLS to the Public, I have received numerous certificates of their superior efficacy in curing diseases; also had letters from respectable Physicians, who have used them in their practice with the best success. *The great and primary cause of most diseases is a derangement of the functions of the Liver; or, in other words, an increased or diminished secretion of the BILE!* Every human being ought to understand that a certain quantity of bile is necessary to assist in the process of digestion, and in regulating the bowels. But when the functions of the Liver are disturbed by a cold, change of weather or climate, or any incidental cause, and the flow of the bile is increased beyond the natural quantity required, disease is the consequence. So well is this understood by many, that it is common for persons to say, when they feel unwell, that they are billious, meaning that they have too much bile in the stomach. On the other hand, when the flow of bile is diminished, the process of digestion is imperfectly performed, and the patient becomes weak and emaciated, because nourishment contained in the food taken into the stomach, is not properly extracted, and the food is ejected in a crude state.

**SAMUEL WOODBURY.**

**TOWNSEND, MASS.**

MASON VILLAGE, May 19, 1837.

This is to certify that I have for a year or two past, sold Mr Samuel Woodbury's Pills, and I can assuredly say, they are the best Family Pills, I have ever sold, not excepting Brandreth's, Jewett's, or any of the various other kinds I have for 18 years sold; and I find they are cheaper for the consumer by one half.

## DR. BALL'S Vegetable Stomachic Bitters and FAMILY PILLS.

These articles are prepared from the original recipe of Dr. Ball, by James Ball. This vegetable compound surpasses any thing yet discovered for its efficacy in restoring the strength of the stomach and system when debilitated by disease or old age.

There are but few persons, who in the course of their lives do not suffer more or less from want of appetite and bad digestion; hence the multitude of persons who are constantly complaining of weakness of the limbs, and their inability to walk or labor for a short time. It is plain to be seen that if the stomach be weak, it is unfitted to digest food, and if the food is not properly digested, it is not calculated to sustain or strengthen the system. Here then we have the origin of most of the diseases which afflict the human frame. They commence in a debilitated stomach and loss of appetite; the system languishes for want of nourishment; but the source from which it was accustomed to draw its support is cut off; the stomach which alone can prepare the food of the body is debilitated and unable to perform its accustomed labor. Here then is the fountain head.

We must strengthen the Stomach, and the Stomach will strengthen us. Forty years of private practice have fully proved that there is nothing which will compare with

### Dr. Ball's Vegetable Stomachic Bitter,

in strengthening a debilitated Stomach and invigorating a system "run down" by disease or old age.

Nervous debility, a very common complaint among females, is sooner relieved by them than any other Medicine. Hundreds of testimonials could be adduced from thousands who have been benefited by taking these Bitters, but it is preferred that they should recommend themselves. These Bitters are of two kinds, the Strengthening and Physical; and those persons who are of a bilious and costive habit would do well to take the Physical Bitter before the Strengthening.

Where a person does not need physic, but is weak and debilitated, let him begin upon the Strengthening Bitter.

### Dr. Ball's Vegetable Family Pills.

These celebrated Pills have been used in the private practice of Dr. Ball, for more than forty years with great success in curing the following diseases, viz. Headache, Dizziness, Pressure of Blood to the Head, Pains, Flatulence of the Stomach, Dyspepsia, Liver Complaint, Costiveness, and Humors, from which arise a thousand complaints, especially in females. They are a safe and efficacious remedy, and should be kept in every family. By an occasional use of these Pills, many families may ward off disease, and thereby supersede the attendance of the Physician, and the charges accompanying a long fit of sickness.

Orders directed to JAMES BALL, Northboro', Mass. will receive immediate attention.

**Miller's Patent Ventilating  
School-House Stove,**

*For which was awarded the Diploma of the Massachusetts Charitable Mechanics' Association.*

The attention of School Committees and the Public generally is respectfully invited to the following extract from the report of the Board of Overseers of the Centre School District in Worcester, presented by ALFRED D. FOSTER, Esq., Secretary of the Board, and accepted April 17, 1841.

“The School rooms in the district are now provided with commodious seats—four of them with the Ventilating School House Stove, manufactured by our fellow citizen, Henry W. Miller. It is an immense improvement as regards purity of atmosphere and constant ventilation. Wherever a new Stove is needed, none other should be allowed to be used, and it may be a question whether Stoves of that pattern, should not at once be put into all the houses, even at the loss of those now used. The volume of warm fresh air, which is thus constantly thrown into the room, tends to keep up vigor and animation. An observer will immediately perceive the difference between a pure and a corrupt atmosphere, in the countenance of the Scholars.”

The district appropriated \$250 to enable the Committee to place the Ventilating Stove in all the School Rooms. Numerous other recommendations might be added, but the above is thought sufficient.

The Ventilating Stove is equally well adapted for warming Factories, Stores, and large Work-shops, and is superior to any other now in use.

MILLER'S PARLOR

COOK STOVE.

The above Stove was invented and introduced by the subscriber, and he has added several valuable improvements which render it the most desirable stove of the kind in the market. Its construction is such as to recommend it to the notice of those wanting a neat and convenient Stove for the sitting room, and one which, at the same time possesses capacity to do the cooking for a small family in the most economical manner.

H. W. M. has on hand a large assortment of Cooking, Parlor, and other STOVES, FIRE FRAMES, among which are MILLER'S FOUR BOILER ELEVATED OVEN COOK STOVE, Wheeler's improved Union Cook Stove, with and without elevated Ovens; Wilson's People's Cook Stove, combining new and useful principles; Hathaway's Hot Air Cook Stove; Orrs Patent AIR TIGHT STOVE, Stewart's Summer and Winter Cook Stove, together with a large variety of other patterns, which will be sold at the lowest prices. Persons in want will do well to call and examine before purchasing. He continues to manufacture STOVE FUNNEL from the best Russia and English Sheet Iron.

Also, Copper, Sheet Iron and Tin Work, done to order, and of the best materials and workmanship. All orders thankfully received and promptly executed.
