The library of the Lyceum and Library Association, consisting of between 4 and 5000 vols. was also donated to the city. The two libraries were accepted by the City Council, as the commencement of a free public library; a lot of land on Elm Street, near Main, purchased for \$5000; the sum of \$3000 appropriated for enlarging the library; and a Board of Directors elected, as follows:

John Green, for life.

A. H. Bullock, Sam'l D. Harding, for three years.

### FORTY DOLLARS.

The above Machine is, with this improvement, the best low priced one now before the public; and all persons desirous of purchasing, are requested to give it a careful examination before purchasing elsewhere. A new HEMMER which stitches the hems upon the right side of any width, and a new gauge for straight sewing, with which you cannot fail to sew a straight seam, adapted to any Sewing Machine, is also offered. Our Single Thread Machines altered to Double Thread, for \$15 each.

## GROVER & BAKER'S SEWING MACHINE.

We have taken the Agency for the sale of these celebrated Manufacturing and Family Machines, and have also used them with PERFECT SUCCESS in our Sewing Room for the year past. In recommending this Machine to the public, we do so because WE KNOW it is the BEST MACHINE for sewing any material, from the thickest leather to the thinnest muslin, and to make the strongest and most permanent stitch.

The Machine is not complicated, ladies do not have to spend more time to keep the Machine in order than it takes to do the work. It is nearly noiseless in its operation, and any lady of ordinary capacity can learn to operate it in one hour's time; it sews silk, cotton or linen thread from the spools same as they are purchased, without rewinding; the seam has as much elasticity as the most elastic cloth. The

**Price for a good Family Machine is only \$50.**

There are twenty-six patterns of G. & B. Machines made, so that we can accommodate all customers.

A Circular with full particulars and sample of sewing, and references to the names of some fifty people in Worcester and vicinity, who are using the Machine, will be sent to any address by mail on application.

**MACGREGOR'S**  
 CELEBRATED VENTILATING  
 PARLOR, OFFICE AND HALL STOVES  
 AND HOT-AIR FURNACES,

Which have been in use for twelve years, and, with the Recent Improvements, for Economy, Purity of Air, and Ease in Management, has no Equal.

They can be so regulated as to give any degree of heat required, and unlike other anthracite coalburners, *ventilate the apartments quite as thoroughly* as a wood fire or open Franklin, *producing a current of air at once moist, pure and agreeable*, and as NONE OF THE AIR WHICH COMES IN CONTACT WITH THE FIRE-POT, IS USED FOR RESPIRATION, the tendency to produce headache so much complained of by those using stoves and furnaces is entirely obviated.

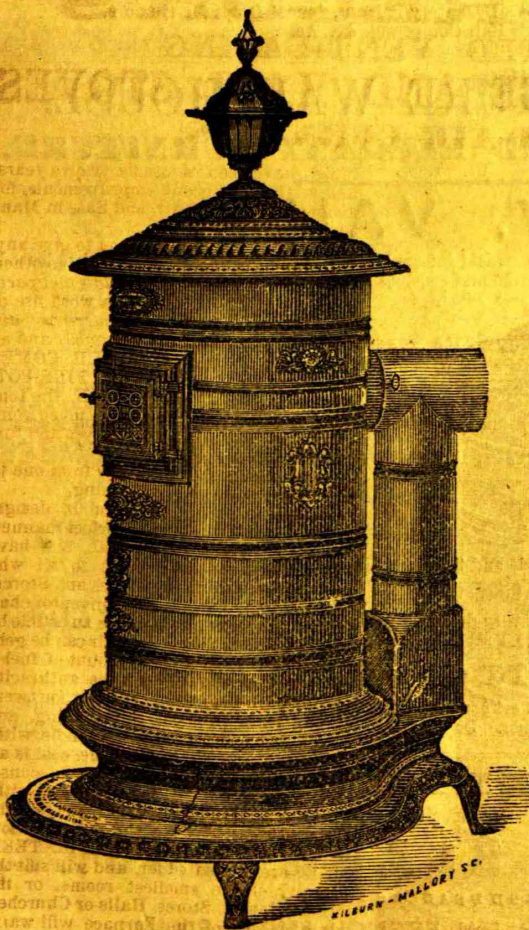

The fire may be continued from one to three days without replenishing.

These stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate, and have given universal satisfaction to all who have adopted them for Offices and Stores, as well as the Parlor. The inventor challenges THE WORLD to produce an article by which so much pure warm air can be generated from so small an amount of fuel—requiring but about fifteen lbs. anthracite coal to warm an ordinary parlor for twenty-four hours without replenishing, and then leaving fire enough to rekindle, without the use of charcoal. The coal is all consumed and no clinkers made, consequently sifting coal is dispensed with. When the Stove is properly managed, the fire continues through the entire season, without once going out. Our SIXTEEN SIZES are calculated for, and will suit the capacity of the smallest rooms, or the largest Houses, Stores, Halls or Churches, while one size of the Furnace will warm 200,000 cubic feet of space. Added to all these qualifications, the purchaser may reasonably expect to save 30 per cent. in fuel expense.

## ONE - HORSE MOWING MACHINE,

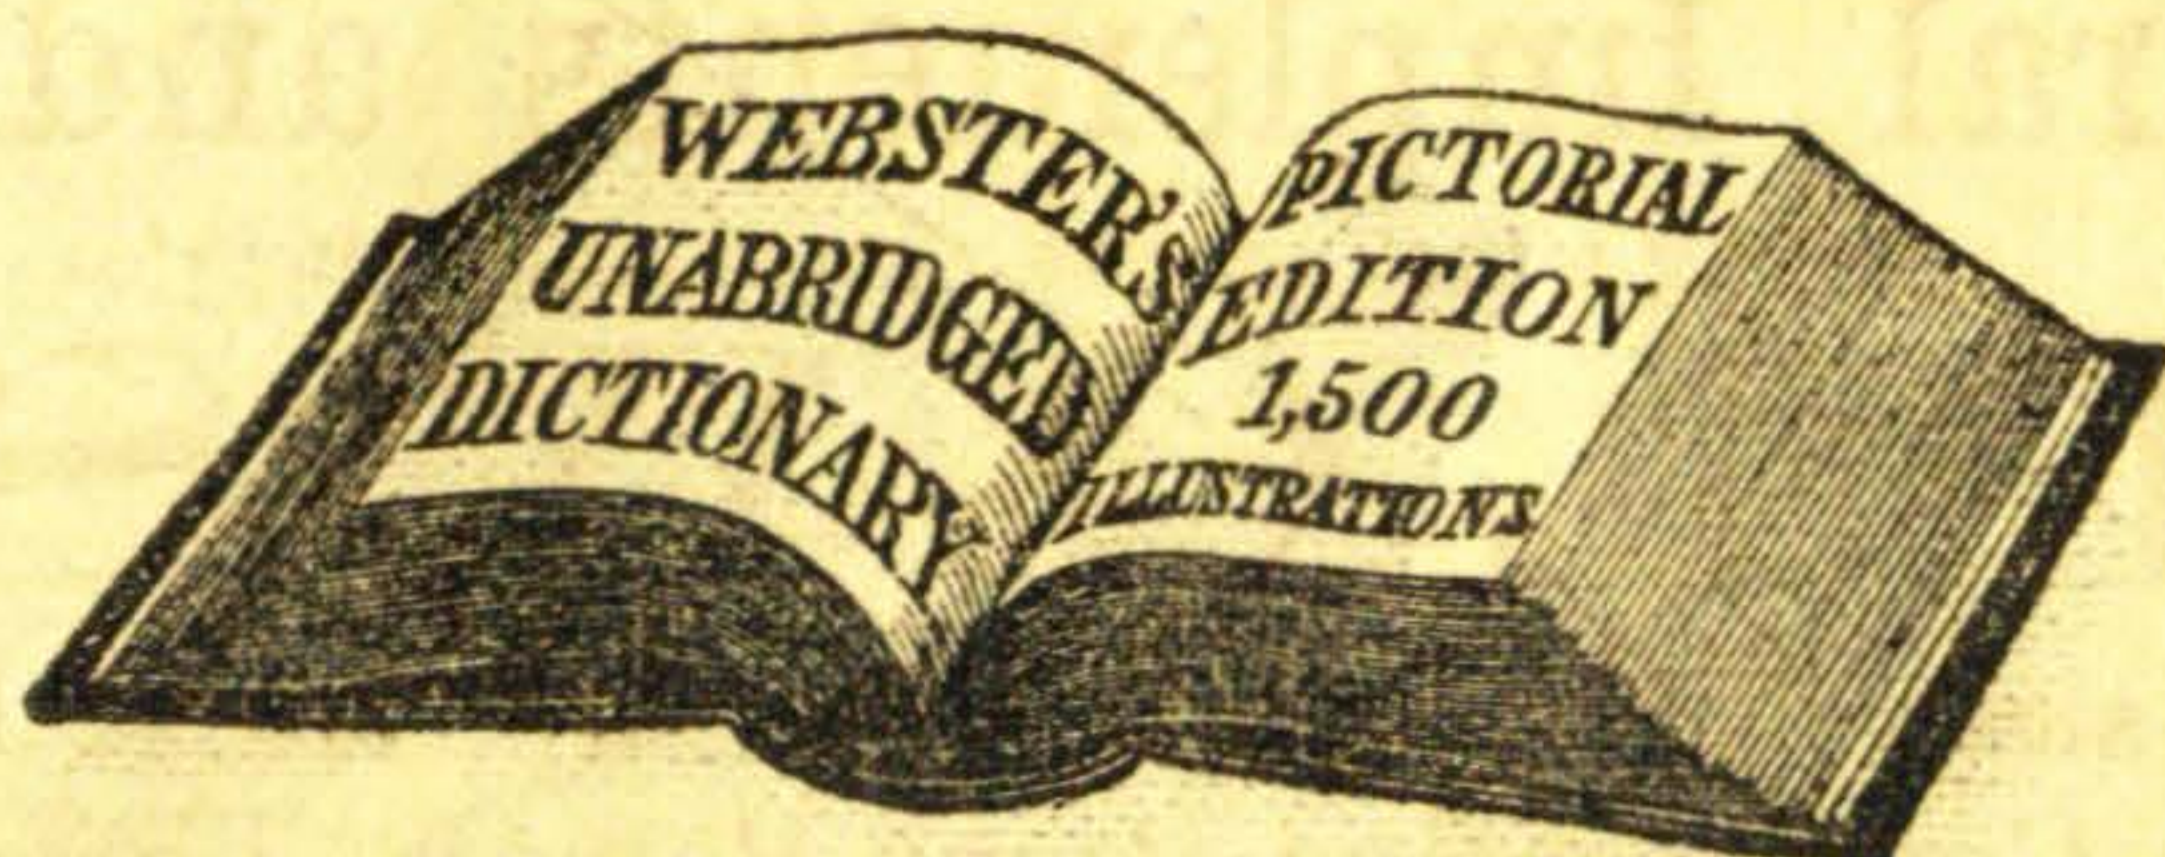

which they believe to be just the machine wanted by N. E. Farmers, as it is simple in construction, easy of operation, light, and cheap enough to be within the means of most farmers.

It is so constructed as to combine great strength and durability with the smallest possible weight; the cutters are so formed as to prevent all liability to clog: it may be stopped and started in wet or lodged grass, without backing; the seat is so placed that the operator can ride with ease to himself and the horse: it has a wheel and lever by which the operator can instantly raise the cutter-bar 6 or 8 inches, and by another lever, throw it in and out of gear, to pass over a stone or other obstruction, and the machine may thus be drawn to and from the field, &c.; it operates well on rough or uneven ground, where other machines cannot mow. It is entirely of iron, and is so adjusted and guarded against accidents, that it requires but little more attention to keep it in working order, than the common scythe.

## GRANULAR FUEL,

Patented June 15, 1852.

Manufactured from branches and entire trees, from 3 or 4 inches in diameter down to the smallest twigs, cut four inches long. A fire can be kindled with Granular Fuel, in half the time with half the trouble necessary for split wood or charcoal, (no shavings required,) and it has fully established itself wherever manufactured as a superior article. The sales in Worcester already average about 1000 bushels per week. It is exclusively used in most of the large institutions in the city.

It has become exceedingly popular as a SUMMER FUEL, as it is *clean*, and just the quantity needed for a given purpose can be used, without unnecessarily heating the room.

Price, 10 bushels delivered for \$1.00.

## PRESTON'S PATENT COCOA BUTTER,

EXTRACTED AND PREPARED ONLY BY

### JOHN PRESTON, No. 36 CENTRAL ST., BOSTON.

*A Solid Oil, extracted from the kernels of the fruit of the Theobroma Cacao, or Chocolate Nut.*

In throat diseases, when the air passages are inflamed, it acts as a specific, allaying irritation, by preventing the access of air, to the parts already inflamed, and acting through a slightly astringent quality as a healing agent. In asthmatic affections, it diminishes the local irritations, allays the sensation of dryness in the mucous membranes, and prevents frequent recurrence of Cough, and desire to expectorate. Persons unable to sleep have found themselves enjoying sound slumber, after retiring with a small piece of this Butter in their mouths, which, slowly melting, protected the surfaces. Its slightly astringent power, with emollient effects, suggested its application in Piles, and similar diseases; and numerous cases of relief from extreme suffering, attest the high value it possesses as a remedial agent in its simplest natural form. For healing Cold Sores, Chapped Skin, and restoring softness to roughened surfaces, it excels the most elaborate compounds; while its use is unattended by any danger arising from the absorption of mineral compounds into the system. In the nursery, with Mothers and Children, it is particularly recommended. Its medicinal importance is the better acknowledged when it is seen successfully grappling with Chronic Affections which have baffled the skill of eminent physicians, and increased under their prescriptions.

In proof of the above, the Proprietor is kindly permitted to refer to the Medical Fraternity of Boston, and Doctors Miller, Cushing, and Warren, of Dorchester, under whose observation it has been directed. Other testimonials of its inestimable worth, as a Remedial Agent for all the ills for which it is recommended, can be seen at the Proprietor's Office, 36 Central Street, Boston.

**DIRECTIONS.**—For Diseases of the Throat, a piece the size of a pea, or larger, allowed to melt in the mouth. For outward applications—apply freely to the parts inflamed.

EATON'S COLLEGE.

CLASSICAL DEPARTMENT.

Students in the Latin and Greek Languages and Literature, are instructed by Professor Humphrey Webster, a graduate of Dartmouth College, of the class of '44; Prof. Webster has for years sustained a high reputation as a teacher, remarkable for his thoroughness and tact as an imparter. Students desiring to enter another College, may pass through any course of preparation necessary to their admittance. It is the design, however, of the Proprietor and Faculty of this Institution, that its graduating students, in all else save a diploma, shall equal those of any College.

EATON'S COLLEGE.

PREPARATORY DEPARTMENT.

A Preparatory Department for Lads and Misses is opened. It will be thorough and practical in its character, demanding self-reliance and original thinking. In its plan it covers the whole ground necessary for youthful beginners, leaving nothing unsaid, nothing unexplained, nothing for the scholar to supply by guessing, but unfolding from the starting points of theory and first truths, a comprehensiveness which will enable the student to give an affirmative answer to that important question, "Understandest thou what thou readest?" Terms \$10 per quarter.

Thorough and practical instruction will be given in Mathematics, Engineering and Surveying. The utmost care will be given in this department.

New School House at New Worcester.

## PUBLIC SCHOOLS.

The public schools in Worcester have long enjoyed a very high reputation for their excellence; and the larger part of them are well deserving that reputation. They are some forty in number, taught by 6 male and 66 female teachers, and located in all parts of the city, to accommodate, as nearly as may be, all the children within its boundaries. Those in the center and New Worcester are graded, and admission to their advantages is obtained by application to the Superintendent, at his office in City Hall. The schools are under the charge of a Committee of twenty-four, eight being elected each year, and serving three years, whose deliberations are presided over by the Mayor.

The Classical and English High School is designed to give free instruction in all the higher English studies, as well as in the Latin, Greek and French languages.

Besides the foregoing, a school is kept during the winter months, for the benefit of lads and young men who attend only during that time. For several years, also,

### FREE EVENING SCHOOLS

have been opened during the winter, for persons of all ages, and both sexes, for whom no other school is provided. Domestic and other persons who are employed during the day, here have an excellent opportunity to commence or pursue their studies under competent teachers, free of cost; and many wisely avail themselves of it.

The evening school this winter, is in the Main street school house.

The commencement of the School year, and the arrangement of the terms and vacations, have been changed during the past year, and are as follows:

"The school year shall commence on the second Monday in May, and be divided into four terms, comprising forty-three weeks, and commencing respectively on the second Monday in May, the first Monday in September, the Monday after Thanksgiving, and the last Monday in February.

The Annual Examination shall be made at the close of the Spring term, and all promotions shall be made by the Visiting Committee at that time, and at no other, except in especial cases, to be voted by the Board.

The Vacations in all the schools, except the Suburban, shall be as follows: six weeks preceding the first Monday in September; Thanksgiving week; one week preceding the last Monday in February; and one week preceding the second Monday in May."

Therefore the Fall term will comprise eleven weeks; the Winter term twelve; the Spring, ten, and the Summer, ten.

Hon. A. H. Bullock having presented the city the sum of \$1000, as a fund from the income of which to present annually Medals for excellence in the High School, it has been decided to award twenty SILVER MEDALS to as many of the pupils, who shall excel in the several branches pursued in the School,—the award to be made by a Board of five Judges, to be elected annually by the School Committee, from citizens outside of their own number.

## PRIVATE SCHOOLS,

of various grades, abound in the city. Among the more prominent of these are Mr. Metcalf's "Highland School," on Salisbury street; Mr. Lombard's "Salisbury Mansion School," Lincoln Square; Rev. Dr. Pattison's "Oread Institute," on a romantic eminence west from City Hall; the Worcester Academy, located in the old Antiquarian Hall, Summer street,—Prof. Bushee's Young Ladies Institute, in Clark's Block, and Mr. Eaton's College of Commerce, Science and Literature, in Bank Block—which are boarding schools of high grade, and receive many scholars from abroad. There are, besides, several private schools for smaller scholars, which are well sustained.

Misses Robinson and Gardner's School of Design and French Institute, in Clark's Block,—a newer enterprise,—is a valuable addition to our educational advantages, and is meeting with encouraging success.

### WORCESTER CHILDREN'S FRIEND SOCIETY.

This Society still continues its efforts to "rescue from evil and misery such children as are deprived of their natural parents," and provides for them, at its HOME on Shrewsbury street, until homes are found for them in suitable families. ### FEMALE EMPLOYMENT SOCIETY.

This is another public Institution of much value. Its design is to furnish work, chiefly sewing, at fair prices, to the industrious poor, finding a market for the various articles manufactured, through its store, 100 Main street, and in other ways. Persis R. Davenport, Agent.

HENRY J. HOWLAND, 212 Main Street.

The following notice was written by J. L. CLARKE, Esq., (now of the State Auditor's Office,) and  
published editorially in the Worcester Transcript, some years since, and the facts there stated are  
still worthy of attention.

ELEGANT TYPOGRAPHY.—It seems to have been the impression in many minds,  
that book printing cannot be done in a superior style, except in Boston or some of  
the larger cities. It is altogether a mistaken opinion, as some of the most perfect  
and elegant book work we have ever seen is executed at the office of Henry J. How-  
land, of this city. We have a specimen just now before us, the pamphlet contain-  
ing a recent sermon occasioned by the death of a distinguished citizen. Its typo-  
graphy cannot be excelled, nor can it suffer by comparison with the most elegant  
English and American specimens of printing. Those desiring work of this kind,  
are referred to Mr. Howland.

# PERUVIAN SYRUP,

OR PROTECTED  
Solution of Protoxide of Iron  
COMBINED.

This well-known remedy has been used very extensively, and with great success, for the cure of *DYSPEPSIA*, or impaired and imperfect digestion, and the consequent deterioration of the blood; and for the cure of the following forms of disease, most of which originate in *DYSPEPSIA*:

*Liver Complaint, Dropsy, Neuralgia and Nervous Affections, Loss of Appetite, Headache, Languor and Depression of Spirits, Carbuncles and Boils, Piles, Scurvy, Affections of the Skin, Consumptive Tendencies, Bronchitis, Diseases peculiar to Females, and all Complaints accompanied by General Debility, and requiring a Tonic and Alterative Medicine.*

**NOTE.**—The failure of iron as a remedy for *Dyspepsia*, a bad state of the blood, and the numerous diseases caused thereby, has arisen from the want of such a preparation of Iron as shall enter the stomach in a *Protoxide* state, and assimilate at once with the blood. This want the *PERUVIAN SYRUP* supplies, containing, as it does, iron in the only form in which it is possible for it to enter the circulation. For this reason, the *PERUVIAN SYRUP* often radically cures diseases in which other preparations of iron and other medicines have been found to be of no avail.

*Certificate of A. A. Hayes, M. D., of Boston.*

It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the *PERUVIAN SYRUP* this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto-carbonates, citrates, and tartrates, of the *Materia Medica*.

It is also eminently adapted to take the place of any Protoxide of Iron which Physicians have used in scurvy or Scorbutic attacks; and to meet such cases the Syrup should be found in the medicine-chest of every ship.

A. A. HAYES, *Assayer to the State of Mass.*  
16 Boylston Street, Boston.

*Certificate of James R. Chilton, M. D., of N. Y.*

It is well known, that it has been found very difficult to preserve in a palatable form, for a desirable length of time, compounds of the Protoxide of Iron. The *PERUVIAN SYRUP*, I am pleased to say, will be found to have accomplished this desirable end.

JAMES R. CHILTON, M. D., *Chemist.*  
93 Prince Street, New York, Aug. 8, 1859.

The following certificate is from well-known citizens of Boston:—

The undersigned, having experienced the beneficial effects of the *PERUVIAN SYRUP*, do not hesitate to recommend it to the attention of the public. Rev. John Pierpont, Peter Harvey,  
Thomas A. Dexter, James C. Dunn,  
S. H. Kendall, M. D., Samuel May,  
Thomas C. Amory, Rev. T. Whittemore.

### *Testimonials from Clergymen.*

The Rev. JOHN PIERPONT says:—"I have been cured of a troublesome cutaneous disease by the use of the *PERUVIAN SYRUP*, and it affords me great satisfaction to find that it is making its way into the confidence of the medical profession, for my settled conviction is, that it deserves the confidence, not of that profession alone, but of the public."

The Rev. WARREN BURTON: "I do not hesitate to recommend the *PERUVIAN SYRUP* to any whose habits render them liable to *Headache, Dyspeptic Complaints, Neuralgia, Nervous Affections, and General Debility.*"

The Rev. THOS. WHITTEMORE:—"I have been using, for some time past, the *PERUVIAN SYRUP*. It gives me new vigor, buoyancy of spirits, elasticity of muscle. I have no doubt that in cases of *Paralysis*, like mine, *Dyspepsia*, and especially of *Dropsy*, it may be administered with a greater prospect of success than any other medicine in use among us."

### *Testimonials from Well-known Physicians.*

Letter from S. H. KENDALL, M. D., Boston, Jan. 22, 1859. I was for many years afflicted with *Liver Complaint*, of which I was cured in 1854 by the use of the *PERUVIAN SYRUP*, and have enjoyed perfect health ever since.

S. H. KENDALL, M. D.

Letter from FRANCIS DANA, M. D., Boston, June 7, 1859. I have been relieved of a *Catarrhal Affection*, consequent on *Bronchitis*, by the use of the *PERUVIAN SYRUP*; and I would recommend it where a tonic and alterative effect is desired.

FRANCIS DANA, M. D.

Letter from JEREMIAH STONE, M. D., of Provincetown, Mass. Dec 30, 1858. I have used the *PERUVIAN SYRUP* in my practice for fifteen months, and it has fulfilled my most sanguine expectations. It is the beau ideal of a preparation of Iron, and as such I feel it to be a duty to recommend it to all medical practitioners. I have used the Syrup in a remarkable case of *Scrofulous Affection* of the bones and periosteum combined, which effected a complete restoration to health. For such diseases as this, I consider the Syrup an invaluable medicine.

JEREMIAH STONE, M. D.

Letter from W. R. CHISHOLM, M. D. New Bedford, Dec. 25, 1858. I have employed the *PERUVIAN SYRUP* successfully in cases of *Dyspepsia, Chronic Diarrhœa, Nervous Debility, Neuralgia, Erysipelas, Boils, and Diseases of the Skin; also, Chlorosis, Leucorrhœa, Prolapsus Uteri, and in Female Complaints generally.* As an alterative tonic the Syrup ought to be used by clergymen, editors, cash officers, clerks, lawyers, and others who use their brains more than their muscles; as well as printers, operatives, tailors, shoemakers, seamstresses, and all those whose occupation confines them in ill-ventilated and overheated rooms, who are liable to suffer more or less from nervous debility.

W. R. CHISHOLM, M. D.

N. B. Pamphlets giving further information of the Syrup, can be had on application to the agents, or to

A Professional Cloth Dresser erases the Grease entirely, makes the Garment soft, silky and pliable, and brings original lustre to the most delicate fabric. A Cloth Murderer cleans the nap and drives the grease and dirt into the body of the cloth, makes the garment stiff and hard, and eventually rots it.

We have on hand a good assortment of Pianos manufactured by **WOODWARD & BROWN**, to which  
we would call the attention of the public. The facilities they have for manufacturing, has given  
them the advantage over many, and their Pianos have proved themselves to be of *superior quality*.

We would also call the particular attention of all who are lovers of music, to a New and very Supe-  
rior Piano Forte, manufactured only by **WM. P. EMERSON**, for which we are the *only* authorized  
Agents for Worcester County. This Piano is an entirely new thing; it has the **PATENT SUSPEN-  
SION BRIDGE**, an improvement that has long been sought for, and has not until now been discov-  
ered, to bring out the tone on the two upper octaves, which in *most* Pianos are so deficient. It has  
also the **DIAGONAL SCALE**, the wound or bass strings running over the treble, giving them more  
length, in consequence of which we are enabled to produce *double* the tone than from those made  
otherwise. The Suspension Bridge is made entirely of wood, which enables us to get rid of that  
harsh, metallic tone that so often grates upon the ear. It has also the **GRAND DAMPER**, which  
gives a superior finish to the interior; this with the **Patent French Double Grand Action**,  
enables us to produce a tone *equal* to the Grand Piano; in fact, it can be called no other than a  
Square Grand.

**NEW AND SECOND-HAND PIANOS TO RENT, EXCHANGED, &C.**

**PIANO-FORTES TUNED AND REPAIRED**, in any part of the country, with thoroughness and  
dispatch, without charging an exorbitant price. **PIANO STRINGS**, and anything in the Piano
