# The Return Circuit in Advertising

The circuit must be completed before the bell will ring The Buyer must find the Seller before a Sale is made

Creative Advertising,—in newspapers, magazines, billboards, etc. tends to suggest wants and to create desire,

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

This Directory is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

Have you made it easy for buyers' to find You?

# The Largest Leather Belting Plant in the World

Worcester is the home of the largest leather belting plant in the world—the Graton & Knight Mfg. Co. Over 600,000 hides are used here annually in the manufacture of Leather Belting and Leather Products, including Packings, Pump Leathers, Soles, Counters, Welting, Box Toes, Automobile Leathers, Razor Strops, Protective Leathers, Boston Bags and a large variety of leather straps. The Graton & Knight Mfg. Co. was established in 1851. At that time two people were employed. To-day the Plant has over 15 acres of floor space and employs 2500 people.

This Company has branches and distributors in all principal cities of the world.

## CONFIDENCE

When you come into our office and tell us something about our service we believe you are speaking the truth. On the strength of your word we proceed to spend our money in an effort to right what you tell us is wrong. Usually the expense to us is considerably greater than the amount involved in your complaint because we believe in thoroughness in matters of Public Service.

We have confidence in YOU. We believe that you are fair and that you propose to treat us fairly in accordance with the extent to which we measure up to the standard of Good Public Service.

We want you to have confidence in us. We have tried to bring out the fundamental fact that it is through service that we hope to succeed because we believe that through service lies the only road to real and permanent success.

There lies our road. With your co-operation we shall give our best to the future of this community and to the company whose real interests are inseparable from its growth and prosperity.

## Norton Products are:

Alundum Grinding Wheels, Crystolon Grinding Wheels, Alundum Grain for Polishing, Glass Cutting Wheels, Razor Hones, Scythe Stones, Alundum Refractories, Alundum Safety Tile, Rubbing Bricks and Stones, Grinding Wheel Dressers. Complete Line of Grinding Machines.

The grinding wheel user should always remember that there is one suitable wheel, one combination of abrasive, grain and grade, for each particular operation, whether it be round grinding, surface grinding, tool grinding, internal grinding, for machinery, manganese or high speed steel, cast iron, chilled iron, bronze, brass, or aluminum. He should also remember that the wheel must be selected to meet all the conditions that affect the operation, such as the condition of the machine, feed, contact and method of grinding.

Alundum Wheels and Crystolon Wheels are distinct in composition and have therefore different cutting qualities.

Alundum Grinding Wheels should be used for all steel grinding, except in those few cases where the conditions are out of the ordinary. Since 75% of the pig iron production of the world goes into steel, this means that Alundum Wheels should perform by far the larger proportion of grinding operations.

Crystolon Wheels, on the other hand, should be used on cast iron, which is lower than steel in tensile strength. Crystolon Wheels are hard and sharp, and the grain is of such a character as to break away at the right time, giving a wheel that cuts fast and free.

For speed, accuracy, and economy the Norton grinding machines have no counterpart. With the use of these machines it is possible to remove stock rapidly and accurately and with freedom from vibration.

The ideal combination is a Norton grinding machine with Norton grinding wheels.

Gentlemen:

I feel that to let the compiling, printing and binding of "High Lights of Boston", which you got out for our use at the 1920 Convention of the National Shoe Retailers' Association, pass without comment would be a distinct discourtesy and injustice to you.

The booklet was very satisfactory, was easily the most acceptable souvenir at the Convention, was highly complimented as a piece of printed matter, as a historical sketch and the fact that we have received many requests by mail for it from all parts of the country indicates that it has been well advertised.

Please accept our thanks for the great co-operation you rendered in handling this book for us.

Very truly yours.
