ADVERTISEMENT.

The fourteenth annual issue of the Worcester Almanac, Directory and Business Advertiser, now before the reader, will be found to contain several improvements, which we believe will render it more than ever worthy the very extensive patronage it has received. The new and beautiful map, added at a cost exceeding \$100, with the very full and correct lists of Streets, the recent city ordinances, the new arrangement and considerable improvement in the advertising pages, and the enlarged Directory, containing several hundred more names than ever before, we hope will atone for the unavoidable delay in issuing the work,—especially as we make no addition to the price, though the amount of matter is increased nearly one fifth.

The Heart of the Commonwealth.

A valuable publication with the above title has recently been issued by the publisher of this work, designed, as the first of an annual series, to exhibit the resources and facilities for business, education, &c. &c., which have rendered our city somewhat famous throughout the country and the world, for its enterprise and thrift, no less than for its attractions as a place of residence.

In looking over its pages, any one acquainted with the place will at once observe that "the half has not been told;" but we hope to add to the extent and variety of information, in a second volume, to be issued in the autumn of 1857, if the business men of the city and neighborhood decide that the plan is worthy of their continued encouragement.

The price of the volume is only 50 cents, and it may

be sent by mail to any place not exceeding 3000 miles, for 14 cents. Many copies have been sent in this way to all parts of the country.

For sale at 245 Main Street, and at the bookstores.

KIMBALL, FELT & WENTWORTH,

IMPORTERS AND DEALERS IN

CARPETINGS,

328 & 330 Washington St.,

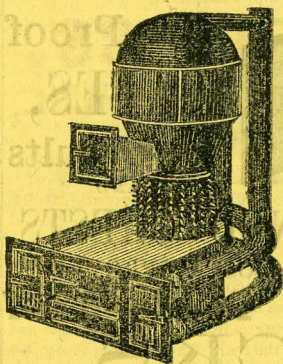

BOSTON.

ANOTHER SPLENDID STORE ON WASHINGTON STREET.—Messrs. Kimball, Felt & Wentworth, the well-known dealers in Carpetings, have just taken possession of the new and spacious store at Nos. 328 and 330 Washington street, which they have fitted up in magnificent style expressly for their varied and extensive trade. With its recent alterations and additions, the store is now by far the largest on the street, having a front width of 45 feet, and extending about 160 feet in the rear. The first floor is a grand hall, divided in the centre by a long row of iron pillars—the walls bearing shelves illuminated with brilliantly colored rolls of rich carpetings of every conceivable design and texture—the ceiling finely decorated, having a mammoth ornamental skylight in the rear portion, and the numerous gas fixtures of a peculiarly beautiful style—the whole presenting an appearance of much splendor and rare effect,

The basement, which is occupied exclusively with the various styles of oil cloths, is uniquely displayed to the view of the street by a large semi-circular space cut from the first floor, thus giving the light of much of the glass front of the store. This space is surrounded by an ornamental railing, and affords opportunity for a fine display of carpetings from the upper ceilings to the lower floor—an arrangement entirely new in this city, but admirably adapted for several kinds of business.

Messrs. Kimball, Felt & Wentworth have a most varied, valuable and attractive stock of goods, altogether worthy of their splendid store, and will continue business in their new quarters with increased facilities for the accommodation of their large list of customers and the public generally. The establishment is heated throughout by steam, and lighted by gas.—*Boston Evening Transcript.*

CAUTION. Dr. Spear claims to be the only real Indian Physician in Boston; and that his remedies are the only true Indian medicines in the world. He does not wish it understood that he is only *an* Indian Doctor, but that he is **THE INDIAN DOCTOR**.

CONSUMPTION IN FEMALES.—O! how one's heart bleeds at the fearful destruction of our best and most lovely females by Consumption! Some slight derangement at first, then a pale and sorrow countenance, a cough, and a few months, and what was life and beauty, is death and corruption. THE AIMWELL STORIES.

A NEW VOLUME—NOW READY.

WHISTLER, - - - or the Manly Boy.

By WALTER AIMWELL.

With numerous Illustrations. 15mo., cloth, 62 cents.

We invite parents to make a careful examination of this series of books. They will, we think, find none more admirably adapted to entertain and to improve their children.

PREFACE TO "WHISTLER."

"The object of this Book is to portray the character of the MANLY BOY—a character that never fails to inspire love and esteem, if only it be natural and genuine. That a youth may still be a real boy in his tastes, his pursuits and his feelings—as every young lad certainly ought to be—and yet exhibit something of true manliness in his spirit and deportment, will, it is hoped, be made manifest to the youngest mind, in the story of WHISTLER."

New Editions of the following Volumes of the Aimwell Series, by the same Author :

CLINTON, - - - or Boy Life in the Country.

With Fourteen Illustrations. 16mo., cloth, 63 cents.

We like "Clinton" for its naturalness. It is a narrative about real life, pleasantly described in just the way to attract young readers, resembling, and quite equal to the "Rollo Stories."—*Christian Register*.

Well, the boys have read it, and they pronounce it "first rate." We confirm their judgment. It enters into the heart of the boy, comprehends his thoughts, his wishes and his temptations; mingles in his sports; stimulates him in his studies, and implants right principles and noble views.—*The Independent, N. Y.*

OSCAR, - - or the Boy who had His Own Way.

With Seventeen Illustrations. 16mo., cloth, 63 cents.

So graphic and natural are the incidents of this story that it must have been compiled from a real boy experience.—*Willis' Home Journal*.

ELLA, - - or Turning Over a New Leaf.

With Sixteen Illustrations. 16mo., cloth, 63 cents.

"The author of the 'Aimwell Stories,' of which series this is, we believe, the third, has a happy knack at combining amusement and instruction. It would be difficult to find a child who would 'skip over' any portion of this volume. If put into the hand of a boy or girl who has the slightest taste for reading, every line of it will be perused again and again, and a dull intellect indeed must be that of the child who will not derive profit from the perusal."

Boston Journal

 All of the above are handsomely bound in uniform styles, both plain and gilt, constituting an attractive series for holiday gifts.

MAYNARD & NOYES'S BLACK WRITING INK.

The manufacture of this Ink was established in 1816, and the quality has now been tested by the public for forty years. During this time it has been constantly increasing in public favor and patronage, and is now the leading article in the country. Those who may be ignorant of its superiority and reputation, are invited to read the following testimonials, and to make a trial of it themselves. When the best judges, after using it twenty and more years, express themselves in one manner concerning its superior excellence, it is quite evident that no one need be troubled with bad ink. Office of Merchants' Insurance Co., Boston, Nov. 18, 1848.

Messrs. Maynard & Noyes:

I have used your Writing Ink for the last sixteen years. In 1840, I gave you a certificate of its excellence, and having continued its use ever since, to my entire satisfaction, my opinion is confirmed in its superiority. It flows freely from the pen, and is in all respects the best ink I have ever used. The other officers in the institution agree with me in the opinion here expressed.

GEORGE HOMER, Sec.

Registry Deeds, Boston, Nov. 29, 1847.

Messrs. Maynard & Noyes:

I have made use of your Writing Ink for the recording of Deeds, &c. the past twenty-five years, and having found it to suit my wishes and purpose entirely, take pleasure in renewing my testimonial of its superiority. From the appearance of the Records in my Office, I am satisfied it is superior to any I have used, and consider it particularly adapted for all purposes, where permanence of color is requisite or desirable. It flows well from the pen, and does not mould; and my oldest Records prove its color to be unalterably black. H. ALLINE, Reg. Deeds.

Messrs. Maynard & Noyes:

Boston, Jan. 10, 1848.

Gentlemen,—It is now, I believe, more than twenty years since the School Committee passed an order for using your Black Writing Ink in the City Schools. I have used it during that period, and deem it a first rate article, and cheerfully recommend it to others. It flows freely from the pen, and increases in blackness after being committed to paper, and the color is durable. I know of no Ink equal to yours, and I have tried many kinds, both English and American.

P. MACKINTOSH, Jr.

Principal of the Writing Dep. Hancock School.

Messrs. Maynard & Noyes:

Boston, Oct. 15, 1849.

Gentlemen,—Your note of the 10th inst., asking us to state the length of time we have used your Writing Ink, and our opinion of its quality, was duly received. We have made use of it generally for the last twenty years, and have found it always of satisfactory quality, being free from those objectionable points so troublesome and common in writing liquids generally. Wishing for it a still more extended sale, we are,

Yours,

J. M. BEEBE & CO.

COPYING INK.

This Ink gives a copy as distinct and perfect as the original, and combines all the properties of our Writing Ink. This quality particularly adapts it to Counting House use, as it answers all the purposes for which a Writing Liquor is wanted. Also,

MACGREGOR'S

VENTILATING

PARLOR, OFFICE, AND HALL

STOVES

AND

HOT-AIR FURNACES,

Have been in use for Nine Years, and with the Recent Improvements, for Economy, Purity of Air, and Ease in Management, has no Equal.

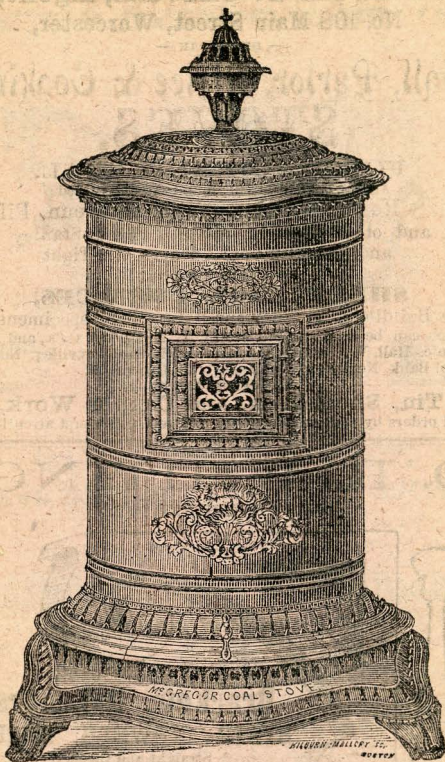

They can be so regulated as to give any degree of heat required, and, unlike other anthracite coal-burners, *ventilate the apartments quite as thoroughly as a wood fire or open Franklin, producing a current of air at once moist, pure and agreeable*, and as NONE OF THE AIR WHICH COMES IN CONTACT WITH THE FIRE-POT IS USED FOR RESPIRATION, the tendency to produce headache so much complained of by those using stoves and furnaces is entirely obviated.

THE FIRE MAY BE CONTINUED FROM ONE TO THREE DAYS WITHOUT REPLENISHING.

These Stoves are *beautiful in design, and finished in the most perfect manner*. They are equally appropriate, and have given *universal satisfaction* to all who have adopted them for *Offices and Stores*, as well as the *Parlor*. The inventor challenges THE WORLD to produce an article by which so much pure warm air can be generated from so small an amount of fuel—*requiring but about fifteen lbs. anthracite coal to warm an ordinary parlor for twenty-four hours without replenishing*, and then leaving fire enough to rekindle, without the use of charcoal. *The coal is all consumed, and no clinkers made*, consequently sifting coal is dispensed with. When this Stove is properly managed, the fire continues through the entire season, *without once going out*. Our SIXTEEN SIZES are calculated for, and will suit the capacity of the *smallest rooms, or the largest Houses, Stores, Halls or Churches*, while one size of the Furnace will warm 200,000 cubic feet of space. Added to all these qualifications, the purchaser may reasonably expect to *save 30 per cent. in fuel expense*.

CHILSON'S PATENT CONE FURNACE

Received a GOLD MEDAL at the Massachusetts Charitable Mechanics Fair, in Boston, 1856.

GARDNER CHILSON has just completed and patented in America, England and France, his new invention—the “CONE” FURNACE—and asks the special attention of those about erecting or remodelling buildings, as well as dealers in Hot Air, Steam, or Hot Water Furnaces, and all interested in Steam Power, to carefully examine this invention, which entirely Changes the Principle and Character of Hot-Air Furnaces, developing another and a new principle, and obviating all former objections to their use. The practical operation of a number of these Furnaces, erected during the past winter, points out a new discovery in science by which the most wonderful economy in fuel has been attained, and clearly demonstrates that the waste heat lost from chimneys is enough to warm every dwelling in the city. By this invention the heat formerly lost is made to warm the house.

This discovery—simple in itself—is the daily wonder of those who witness its results, and it becomes a matter of surprise, that a plan at once so simple and practical in its operation, should thus far have entirely escaped the notice of scientific men. We believe no one who investigates this principle will be liable to use a furnace constructed on any other principle, and we invite all who would witness its operation to call at the Store of

PUBLISHED BY ORDER OF THE CITY COUNCIL.

No. 65.

An Ordinance to establish Street Boundaries.

Be it Ordained by the Mayor, Aldermen, and Common Council of the City of Worcester, in City Council assembled, as follows :

SECTION 1. Hereafter, whenever any street or highway shall have been laid out and established as a public highway in the City of Worcester, it shall be the duty of the Committee on Highways or Street Commissioner, as soon as may be, to cause to be placed at all the angles thereof, good and substantial stone monuments, with a hole of suitable size and depth drilled near the centre of the uppermost end.

SECT. 2. In all cases where circumstances may require that the monument shall be sunk even with the surface of the ground or pavement, if practicable, the distance from the hole in said monument to one or more permanent objects in the immediate proximity of the same, shall be ascertained and constituted a part of the record of the laying out of said street.

SECT. 3. Whenever a street or highway is laid out on a curved line, the greatest distance at right angles from the chord or straight line to the curved or arched line shall be ascertained, and monuments placed on the curve as often as circumstances may require ; but in all cases shall monuments be so placed that the distance from the chord or straight line to the curved or arched line shall not exceed six feet.

SECT. 4. Whenever an angle may happen to be at a point where it is impossible to embed a stone monument in the ground in consequence of a rock or other obstruction, the point shall be definitely designated by drilling a hole and placing an iron bolt therein, or the point shall have some other distinct and permanent mark. Passed Dec. 20, 1852.

AN ORDER

FOR THE REGULATION OF HACKNEY CARRIAGES.

*Adopted in Board of Aldermen, March 6, 1849.**Amended, in Board of Aldermen, March 10, and 17, 1856.*

ORDERED, That the following rules be made and adopted, by authority of an act of the Legislature of this Commonwealth, passed on the twenty-third day of April, in the year eighteen hundred and forty-seven, entitled 'An Act to prevent Obstructions in the Streets of Cities, and to Regulate Hackney Coaches and other Vehicles.'

1. Every Hack, Stage Coach, Omnibus, or other vehicle, whether on wheels or runners, drawn by one or more horses or other animal power, driven by the owner thereof, or by any person in the employment of the owner, which shall be used for the conveyance of passengers for hire from place to place within the City of Worcester, shall be deemed a Hackney Carriage within the meaning of these rules.

2. No person shall set up, use, or drive any Hackney Carriage as aforesaid, for the conveyance of passengers for hire, unless he shall have obtained a license so to do from the Mayor and Aldermen, under a penalty of not less than five dollars and not more than twenty dollars for each time such carriage is used.

3. The Mayor and Aldermen will, from time to time, grant licenses to suitable persons to set up and use Hackney Carriages, for the conveyance of passengers for hire in this city. Such Licenses shall expire on the first Monday of May next after the date thereof, and may be revoked by the Mayor and Aldermen at their discretion. No license shall be sold or transferred without the consent of the Mayor and Aldermen endorsed thereon by the City Clerk, for which a fee of one dollar shall be paid; and a record of all licenses so granted, stating the name of the person to whom granted, the number of the license, and the description of the carriage, shall be kept by the City Marshal.

4. Every person so licensed shall pay to the City Treasurer, for the use of the City, one dollar for each Hackney Carriage for which the license is obtained, and the like sum for the renewal of the license.

5. Every licensed Hackney Carriage shall be marked

and numbered on the outside, on the right and left sides thereof, on some conspicuous place, with the number of the license in figures not less than one and one half inches in size; and such figures shall be of a light color on a dark ground, and of a dark color on a light ground; and any owner or driver of a licensed Hackney Carriage, who shall drive, or permit to be driven, any such carriage not numbered as aforesaid, shall forfeit and pay a fine of not less than two dollars and not more than twenty dollars for each offence.

6. The person in whose name a license has been taken for a Hackney Carriage, shall be considered as the owner of the same for all the purposes of these rules, and shall be liable to all fines and penalties hereby imposed, unless, on the sale of his carriage, notice thereof shall be given to the City Clerk, and the license be surrendered up to him.

7. The price or fare for Hackney Carriages for carrying passengers from one place to another within the ONE MILE Circle (as laid down on the Map of the City published in 1851) SHALL NOT EXCEED TWENTY FIVE CENTS; within the ONE and ONE HALF MILE Circle, THIRTY-SEVEN and one half Cents; over that, FIFTY CENTS for each adult passenger. For children more than three years of age, and less than twelve years of age, half price is to be charged for each child; and for children under three years of age, under the care of an adult person, no charge is to be made. Each driver of a Hackney Carriage, if requested so to do, shall carry with each passenger one trunk and one valise or carpet bag, or other article, and to contain clothing, without compensation therefor; but for every trunk, or other such article, more than two, the driver shall be entitled to demand and receive five cents.

8. Licenses for Hackney Carriages will be revoked by the Mayor and Aldermen, on proof of the demand or taking of excessive fares, or of the misconduct of drivers.

9. That the foregoing Rules be printed, and each Hackman be required to post up, and keep posted, a copy of the same in a conspicuous place upon the inside of his carriage.

Attest: SAMUEL SMITH, City Clerk.

During the past year, this Association has erected a splendid and convenient building, known as Mechanics Hall, on Main Street, for the accommodation of the lectures, fairs, &c., of the association. It is 100 by 145 feet on the ground, and 86 feet high from the sidewalk. There are four stores in the lower story; seven offices, and library rooms, and a fine hall 50 by 80 feet, with ante rooms, &c., on the second floor; and above this the great hall, 80 by 128 feet, with its ante rooms and galleries. There are eight entrances to the hall, and six staircases communicating with the floor below. This hall is believed to be one of the most spacious and beautiful in New England.

WORCESTER CO. HORTICULTURAL SOCIETY.

Stephen Salisbury, President; J. Henry Hill, Secretary; F. Wm. Paine, Treasurer; Clarendon Harris, Librarian. The weekly exhibition of Flowers and Fruits in the Hall of this Society, during the Summer, and its Annual Exhibitions in September, have deservedly attracted much attention, and given a great impulse to the cultivation of good fruit, especially, in this vicinity.

John Brooks, President; Chas. M. Miles, Treasurer; William S. Lincoln, Cor. and Rec. Secretary.

The Society has purchased nearly twenty acres of land on Highland St. west of the Court House, for the accommodation of its annual Exhibitions, including a half mile trotting course, and has erected on the lot a spacious hall, in furtherance of the same object.

THE WORCESTER CHILDREN'S FRIEND SOCIETY.

The object of this Society is to "rescue from evil and misery such children as are deprived of their natural parents." A commodious and comfortable Home has been provided on Pine Street, by the liberality of the late Hon. JOHN W. LINCOLN, where children are received, and provided for, until homes are found for them in suitable families. Donations of money or provisions always thankfully received and judiciously used. Miss Tamerson White, Matron; Miss Louisa Gleason, Ass't Matron.

THE FEMALE EMPLOYMENT SOCIETY,

Is another public institution of much value. Its design is to furnish work, chiefly sewing, at fair prices, to the industrious poor, finding a market for the various articles manufactured, through its store on Pearl street, and in other ways. It is moreover a very convenient institution for families who wish to put out plain sewing, and especially for the lone bachelor, who may wish half a dozen shirts made up, or any other little jobs of sewing done.—saving him all the trouble of hunting up some one to do his work, and then of watching to see that it is done right.

New England Farmer,

A MONTHLY AGRICULTURAL JOURNAL,
 FOR THE FARM AND GARDEN.

The New England Farmer is published in large octavo form, about the first of every month; each number containing 48 pages of reading matter. The Ninth Volume commences with the number for January, 1857, and it is the intention of the publisher to make it of more value than any volume which has yet been issued. It will be filled with practical articles on Agriculture, and Horticulture, and subjects which relate directly to these great branches of the Art of cultivating the soil, mostly original, written by men of long experience on their own farms.

The Farmer is ably edited by SIMON BROWN, assisted by FREDERICK HOLBROOK, of Vermont, and HENRY F. FRENCH, of New Hampshire.

Terms, \$1.00 per annum, in advance.

Subscriptions respectfully solicited.

 The New England Farmer is also published WEEKLY in NEWSPAPER FORM, containing, besides the agricultural matter, a large amount of News and Miscellaneous reading, suited to the wants of the farmer and his family. **Terms, \$2 per annum, in advance.** Please address (post paid),

WORCESTER SCHOOL OF DESIGN

— AND —

Academy of Fine Arts.

THIS Institution is established for the purpose of affording thorough instruction in every department of Art. Classes are formed for children and youth, (WEDNESDAY and SATURDAY afternoons,) who will be taught to draw from the object itself, also to design, beginning with the most simple elements.

The chief aim is to teach pupils to think and act for themselves, to be original, rather than to copy the faults of others. Students more advanced, who are making the study of Art a profession, will receive instruction in every style of Drawing and Painting, including sketching and painting from Nature and from Life.

Facilities are afforded to pupils from abroad who desire to pursue the study of Modern Languages, Music, and the higher English Branches in connection with Painting.

MISS M. IMOGENE ROBINSON,
the Principal of this Academy, has long devoted her energies to the study of Art. Three years she was Principal of the Drawing and Painting department at Charlestown Seminary; from there she was called to the popular Institution at Auburndale. To this Seminary she returned last Spring, after an absence of nearly two years in Europe, where she studied with the most eminent designers and painters, and collected works valuable to the student, and to the artist.

Citizens, and strangers visiting the city, are invited to call at the Academy, (where there is a large and choice Gallery of Paintings) at
