# CHILSON'S CONE FURNACE,

FIVE SIZES.

A CHALLENGE TO THE WORLD.

A GOLD MEDAL

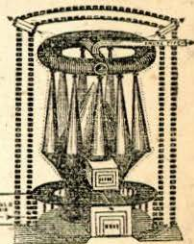

AWARDED BY THE

Mass. Charitable Mechanic Association

FAIR OF 1856.

Patented in the United States, England & France.

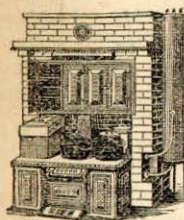

No person will be likely to use any other kind of Furnace long, after once understanding the principle upon which the CONE FURNACE is constructed.

## CHILSON'S

Patent Elevated

# DOUBLE-OVEN COOKING-RANGE.

The great popularity of this Range, as proved by the use of some THREE THOUSAND RANGES, will induce almost every person in want of a COMPLETE COOKING APPARATUS to give it a decided preference over any other pattern known. It is entirely new in principle, having 5 claims patented for improvements not found in any other Range, and overcoming all their objections. Its unparalleled economy in the use of fuel; its quick and even-baking ovens; its patent self-regulating flues around the ovens, *without the use of dampers*; its cast flue-plates around the ovens; and its superior, fine, heavy castings, are improvements that will be appreciated by every housekeeper.

Different sizes, adapted for Family or Hotel use, with or without water-backs, hot-air fixtures, and hot closets, together with

## CITY OF WORCESTER.

In the year one thousand eight hundred and sixty-two.

### **An Ordinance relating to Truants, &c.**

Be it ordained, by the Mayor, Aldermen and Common Council of the City of Worcester, in City Council assembled, as follows :

SECTION 1. That all habitual truants and children wandering about the streets or public places of this city, having no lawful occupation or business, not attending school and growing up in ignorance, between the ages of seven and sixteen years, and residents in this City, shall, upon their names becoming known to the Truant Commissioners, appointed by the Mayor and Aldermen under the provisions of Section 5th, Ch. 42d, of the General Statutes, be required to attend such of the public schools, and for such length of time, as shall be designated by said commissioners.

SECT. 2. Any minor child, between the ages named in section first, neglecting, without good cause shown, to attend the school so designated for him or her as is provided in said section, shall upon conviction of being an habitual truant, or of wandering about the streets or public places of said city, having no lawful occupation or business, not attending school and growing up in ignorance, pay a fine of not less than two nor more than twenty dollars, to be recovered upon complaint before the Justice of the Police Court of said city, or before a Trial Justice in said city, to the use of the public schools of the city.

The Justice before whom any case arising under this ordinance shall be tried, shall receive from the city treasury the same amount of fees for serving the complaint, issuing the warrant, and for the trial, as he receives for similar services in criminal cases arising under the general statutes of the commonwealth.

SECT. 3. In default of payment of the fine provided for in section two, or upon being convicted a second time, for any of the offences named in said section, the child so in default, or so being convicted, may be sentenced to the City Alms House for a term of time not exceeding two years; there to be kept employed, and instructed, under the general care of the Superintendent of the Alms House, with such assistants as the City Council may from time to time employ for that purpose.

SECT. 4. It shall be the duty of the City Marshal, and all other Police Officers of the City, to report forthwith to said Truant Commissioners the names of all children between the ages of five and sixteen years, known or believed by them to be guilty of any of the offences named in section two of this ordinance.

SECT. 5. The ordinance passed by the City Council, May 12, 1862, is hereby repealed, the repeal to take effect on the eighth day of July, A. D. 1862.

Passed to be ordained, June 30, 1862.

## D U R Y E A S' M A I Z E N A

Was the *only* "preparation for food from Indian Corn" that received a medal and honorable mention from the Royal Commissioners, "*Exceedingly Excellent for Food*," (see Jurors' Report, Class III., Sec. A.) the competition of all prominent manufacturers of "Corn Starch," and "Prepared Corn Flour" of this and other countries notwithstanding.

MAIZENA, the food and luxury of the age, without a single fault. One trial will convince the most sceptical. *Makes Puddings, Cakes, Custards, Blanc Mange, &c.*, without isinglass, with few or no eggs, at a cost astonishing the most economical. A slight addition to ordinary Wheat Flour greatly improves *Bread and Cake*. It is also excellent for thickening sweet sauces, gravies for fish and meat, soup, &c. # WORCESTER ROLL OF HONOR.

## List of Citizens of Worcester who have volunteered as Soldiers in the Armies of the Union, from April, 1861, to Dec. 1862.

A list has been made up with great care from the public records and all other accessible sources, by the city clerk and other officers of the city, which, though not absolutely perfect, is the nearest approach to it that can be made at this time. Any reliable information that will aid in correcting it, either by adding omitted names, or removing any not belonging here, or in any way rendering the Roll more complete and perfect, will be thankfully received by the city clerk; also by the publisher of the Directory, who hopes in its next issue to record the final suppression of the rebellion and its cause, and the names of all our citizens who shall have served in the noble army of freedom, in accomplishing that end. The following roll is arranged and copied from the above, in three parts; each in alphabetical order, which is believed to be the most convenient for reference. A few of the honored dead are designated by an asterisk. To each name is added the number of the regiment, adding the State in all except Massachusetts regiments. The reader will observe that Worcester has her representatives in the ranks of most of the loyal States, and we may remark that very many other officers and men who have won distinction in the field, have formerly been residents in this city.

### THREE MONTHS VOLUNTEERS.

The Worcester Light Infantry was organized in 1803. April 16, 1861, at 11 P. M., the company received orders to report in Boston at noon the next day. At 7 next morning, 97 men were at the armory ready for duty. Arriving at Boston, the company was attached to the 6th Regiment, and arrived in Washington, via Baltimore, April 19, being the first armed troops that arrived to aid in defence of the Capital. The Third Battalion of Rifles, including the Worcester City Guards, Emmet Guards and Holden Rifles, left Worcester April 20, and arrived at Annapolis, via Fortress Munroe, on the 24th. Most of the Worcester three months volunteers were in these organizations.

## WEBSTER'S GREAT DICTIONARY.

We learn with much pleasure from the publishers,

**MESSRS. G. & C. MERRIAM,**  
**Springfield, Mass.,**

that the new pictorial edition of

### "WEBSTER'S UNABRIDGED DICTIONARY"

Is having a very extended sale. Every school, every office, nay every dwelling, should be provided with it. It is the standard not only for spelling and definition, but also for correct pronunciation. The amount of general information which is also condensed within its pages is truly astonishing. In the course of a very extensive professional practice we have frequent necessity to seek out and apply the best technical terms and descriptions. Webster is our constant recourse, and we never consult him in vain. It is surprising to observe how replete the work is. As an educational medium it enjoys a very high reputation. For the schools of New York state no less than ten thousand copies have been purchased, while in Massachusetts, Michigan, Iowa, New Jersey and Wisconsin, an equal number has been obtained, or one copy for almost every school. It is said that more than ten times as many copies of Webster are sold as of any other similar publication.—*Scientific American*, May, 1862.

## Public Schools.

There are sixty public schools in Worcester. Under the instruction of seventy-three female and male teachers. The whole number of scholars in all the schools reported in 1862, was 5345: average attendance was 3375. The amount raised by taxation for the support of these schools 1861-62, was \$34 0 0.

The schools in the center and New Worcester are graded and admission to their advantages is obtained by application to the Superintendent, his office in City Hall. The schools are under the general charge of a committee of twenty-four, eight being elected each year, and serving three years) whose deliberations are presided over by the Mayor. Besides the supervision of the committee, the scholars have the benefit of the entire services of the superintendent, Rev. J. D. E. Ames, which have proved exceedingly useful and beneficial.

The Classical and English High School is deemed to give instruction in all the higher English studies, as well as in the Latin, Greek and French languages. A school is also kept during the winter months, for the benefit of lads and young men who cannot attend in summer. And

opened during the winter, for persons of all ages, and both sexes, who are employed during the day. Domestic and other persons, have here an excellent opportunity to commence or pursue their studies under a competent teacher, free of cost.

The school year commences on the second Monday in May, and is divided into four terms, comprising forty-three weeks, and commencing respectively on the second Monday in May, the first Monday in September, the Monday after Thanksgiving and the last Monday in February. The Annual Examination is made at the close of the Spring term, and promotions are made at that time, except in special cases, to be decided by the Board.

The Vacations in all the schools, except the suburban, are: six weeks preceding the first Monday in September: Thanksgiving week; one week preceding the last Monday in February: one week preceding the second Monday in May.

Gymnastic Exercises have been successfully introduced into some of the public schools, and if not allowed to interfere with the legitimate business of the schools, will doubtless prove useful and healthful.

Instruction in Music is now regularly given in the High and Grammar Schools by Mr. Amos Alden, and in the Secondary Schools by Mrs. William Sumner.

Twenty SILVER MEDALS are annually awarded from the income of the Bullock fund, to pupils of the High School who excel in the several branches pursued there.

[From Rev. Joshua V. Himes, Church of the Adventists, Boston.]

"Being acquainted with Drs. Trall and Jackson and their mode of treatment, and having been restored to health by Dr. Jackson, I am prepared to speak from experience of the value of their works. Drs. Trall and Jackson's books called *PATHOLOGY OF THE REPRODUCTIVE ORGANS*, and *THE SEXUAL ORGANISM AND ITS HEALTHFUL MANAGEMENT*, are two works in one volume, of over 500 pages, and cost only three dollars. They would be cheap at as many hundreds. EVERY FAMILY SHOULD HAVE THEM."

[From the Boston Journal.]

"The treatises in this volume are upon subjects of the utmost interest and importance in a physiological point of view. These subjects are handled in an able manner. The authors are medical men of large experience, and the advice which they give is sound, and applicable alike to the guidance of parents and the benefit of the young. A perusal of the work will do much to secure healthy mental and bodily functions, while to suffering humanity it offers judicious advice which may save many from complicating their sufferings by resorting to quack doctors and empirical treatment."

[From the Wide World, Boston.]

"How to live properly—how to use faculties after divine intent and plan—how to keep the body whole, a fit temple for the indwelling of all healthy influences—why the generative organs are so generally abused—why much suffering and wretchedness results to all sides from incontinent habits and practices—how to treat cases of disordered and diseased organs—and, above all, how to PREVENT the waste of both body and soul by indulgences that belong in truth to the right neither of man nor animal—all this may be found well and truly treated of within these covers, and the reflective reader, wishing himself well and not ill, will be glad to recur to the teachings and sympathetic counsels of this volume continually."

[From Boston Traveler.]

"It will be the source of much good, being prepared with care and from abundant knowledge. The style is direct, pointed and vigorous. Many old theories and practices are treated by Dr. Jackson as so much stubble, and as such he burns them up in warm language. Dr. Jackson's book is bound up with Dr. Trall's book, 'Pathology of the Reproductives.'"

[From the Liberator.]

"What is claimed for this valuable work we endorse as to the vital importance of the topics discussed, the value of the advice and information communicated, the judicious manner in which the investigation is conducted, and the experience and ability of Drs. Trall and Jackson."

[From the Freewill Baptist Quarterly.]

"The authors show themselves to be thorough and scientific physiologists, and experienced and skillful practitioners. They have given us thoughtful and valuable treatises, judiciously planned and successfully executed. They are written for ordinary readers, describing symptoms and portraying the results of sexual abuse and disease with great faithfulness, while at the same time they gratify no merely morbid and prurient curiosity, and never transgress the rules prescribed by a genuine modesty and a healthful taste. The work is likely to prove a valuable contribution to the physiological culture of the people, and could it be widely circulated and carefully studied, would do not a little to diminish some of the worst forms of physical suffering, social wretchedness and moral disorder."

[From the Boston Saturday Evening Express.]

"We will only add that if our readers and the public would possess really one of the most valuable books of the day—a book that they will cherish to the latest hour of their life—they will lose no time in getting this, which we are glad to learn is meeting with a rapid demand."

[From the Water Cure Journal.]

"The 'Pathology of the Reproductives' treats principally on venereal diseases, Spermatorrhea, female diseases, and the miscellaneous affections of the reproductive organs, their causes, and proper mode of treatment. 'The Sexual Organism and its Healthful Management,' is the title chosen by Dr. Jackson under which to talk plainly and instructively on all the delicate points connected with generation and reproduction, and the proper treatment for all troubles arising from the abuse of the genitals. The book is well printed, substantially bound, and should be possessed by all old enough to understand it, particularly by all married people."

 The publisher could fill a volume with notices similar to the above, received from the best papers and magazines in all parts of the country, but the foregoing will show that the book is one which should be possessed by every man and woman who would be healthy and happy and know how to remain so. Scores of letters, weekly, are now received from people who have recovered ~~PER-~~ ~~ET~~ HEALTH by following the directions contained in this valuable book.

DEALER IN

**DOMESTIC & FOREIGN SLATE,****WORCESTER, MASS.,**

Is prepared to furnish and put on Slate, of any kind or quality, at prices that will make it an object for all to use them, who have new roofs to cover, or old roofs that need re-covering. The safety from fire of a good slate roof, is an important item; and its great durability renders it by far **THE CHEAPEST** as well as **THE BEST** that can be put on a building, either in city or country. Slate of the kind mostly used by me, have been taken off from a building after sixty years service, and laid on other buildings, as good as new. The expense of keeping such roofs in repair, is very trifling; it having cost the owners less than fifty dollars to repair all the roofs I have slated during the last seven years, amounting to at least 400,000 square feet.

The first cost of a slate roof, is but little more than a shingled one, while it will outlast three or four, and slate may be used to advantage on any roof fit for shingles. Roofs slated at from \$6 to \$9 per 100 square feet, and warranted.

**Fancy Slating done to order.**
